Friday 7th September 2018

Dear Parent/Carer,

Year 5 Science Theme – 'Earth & Space'

Throughout this half term and beyond, Year 5 will be fully embracing their Science theme of 'Earth & Space' as we travel from our very own planet into parts unknown.

As part of this theme, a visit from a mobile planetarium on **Monday 24th September** has been arranged. The children will have the opportunity to look at how ideas about space have changed over time, before finally exploring what causes us to experience night and day on Earth. They will also explore the relative sizes of different planets in our solar system, different constellations that are visible in the night sky and much more.

Thanks to Team TSP who have covered the cost of this workshop to support our learning.

Later in the half term, the children will be completing a practical project on the phases of the moon. Contributions towards the cost of resources are being requested of 50p per child. Please can you send the money into school as soon as possible in a clearly labelled envelope for the attention of Mr McCabe.

Many thanks for your continued support!

Mr J McCabe
Year 5 Class Teacher
