

Zack's Moon

One night, Zack was in bed asleep. Suddenly, he woke up. He was scared because it was very dark and he was all alone. Zack got out of bed and went over to the window. Outside, it wasn't nearly so dark because there was a big moon in the sky. Zack liked the moon. He liked to look for the face of the man in the moon.

Zack left the curtains open when he got back into bed. Now it wasn't so dark any more so he wasn't scared. He picked up his torch and turned it on. He found his book about the moon and opened it at his favourite page. He looked at the pictures about the moon landing. Some lucky men had been all the way to the moon. Zack wished he could go too.

Soon, Zack felt sleepy so he switched off his torch, put down his book and was soon fast asleep. What do you think he was dreaming about?
