

Today I am going to visit KENYA. Kenya is a country in AFRICA.

Before I went to Kenya, I had to change my money to Kenyan shillings.

I visited Nairobi which is the capital city of Kenya.

Outside of big towns and cities, lots of people live in huts made from mud and straw. Here they often do not have electricity or running water.

Lots of people in Kenya live in traditional tribes, as they have done for thousands of years.

These women are wearing traditional clothes. I like how colourful they are!

I saw men from the Maasai tribe doing their traditional dance.  
They jump really high!

Because there are lots of different groups of people in Kenya, there are many different languages. The most common is Swahili. I learnt these Swahili phrases.

English	Swahili
Hello	Jambo
Goodbye	Kwa heri
How are you?	Habari?
Please	Tafadhali
Thank you	Asante

I visited Lake Victoria. It is the largest lake in Africa. Lots of people live near the lake so they can have water and go fishing.

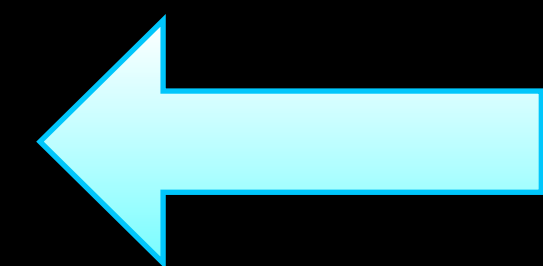

A lot of the land in Kenya is savannah grasslands. This means that there are areas of grass with a few trees dotted around.

Many people come to the savannahs of Kenya to see the wildlife that lives there. One of Buddy's favourite things about Africa was the safari trip he went on. He saw many of Kenya's animals, such as lions and elephants.

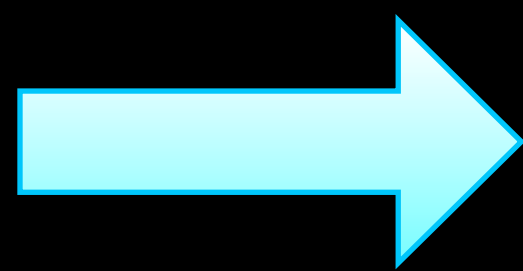

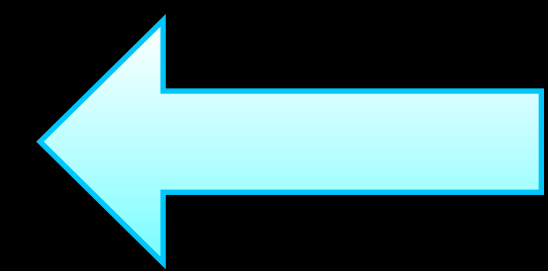

On the next slides are pictures of some of the animals I saw on safari. Some of the picture is hidden. Can you guess what animal it is?

These LIONS were resting in the shade of a tree!

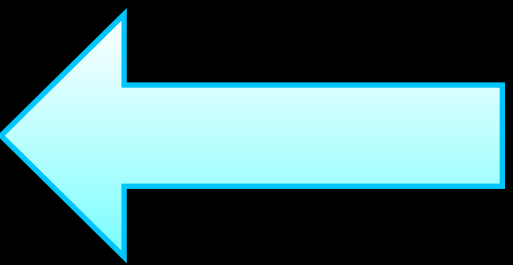

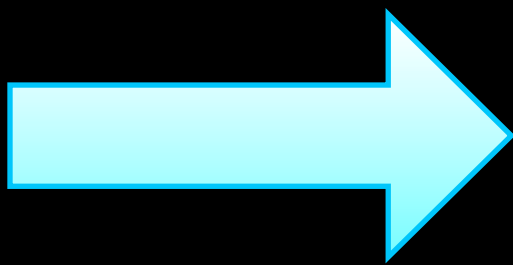

These GIRAFFES were eating the leaves on the trees!

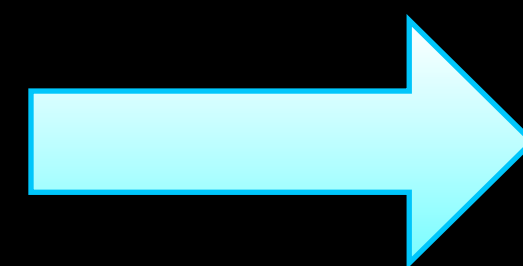

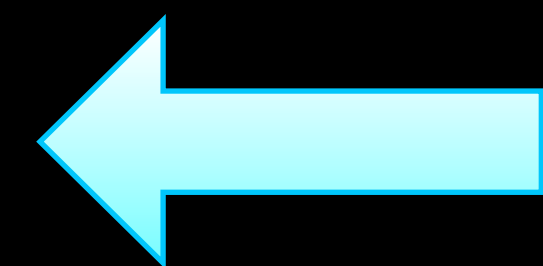

I kept away from this RHINOCEROS. He looked grumpy!

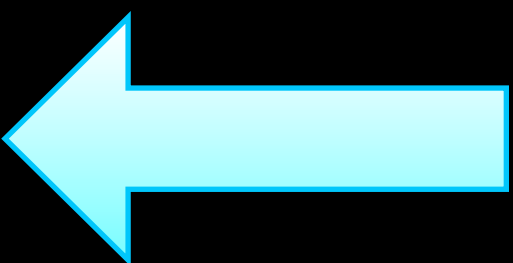

These ZEBRAS were enjoying a drink at the waterhole.

This baby ELEPHANT was following his mother around the savannah!
