

KNOWSLEY CITY LEARNING CENTRES

15 MINUTE TECHNOLOGY ACTIVITIES - JUST FOR FUN!

'Joiners' Photography Part 1- Pic Collage

In this activity your child will take photographs of people or household objects and edit them to form their very own robot, monster, alien or person. The results can be entertaining!

What you will need - a tablet or smart phone & the app Pic Collage (free).

This activity is suitable for all children.

What you need to do:

Download the Pic Collage app. Help your child to take photos of objects around the house and garden which could form limbs, faces and torsos for your fantastical creations! Use the editing tools to cutout, resize and position images. Add stickers, borders and background to enhance the picture.

'Joiners Photography Part 1 – Pic Collage Instructions

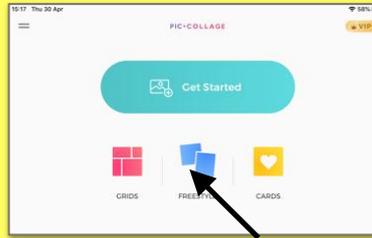

1.

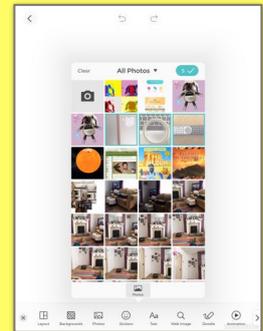

Using the camera app on your phone/ tablet to take photos of items that could serve as different parts of your creation.

2.

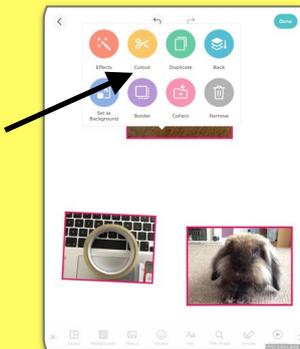

Open Pic Collage and select "FREESTYLE".

3.

Tap anywhere on the screen and select 'photos' from the menu. Then select your photos and press the tick to add them to your collage.

4.

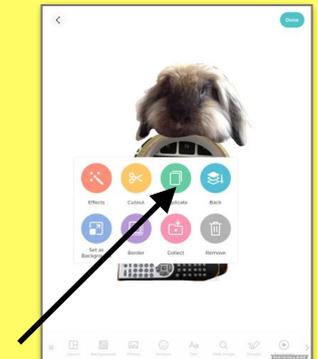

Double tap on each image in turn. Select the CUTOUT button and trim the image.

5.

Position and resize your images to make your creature.

6.

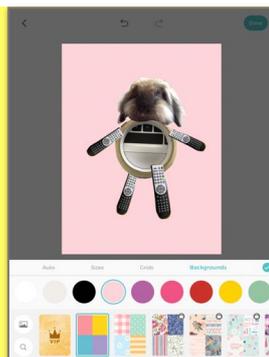

DUPLICATE images if you want more of them, here we need 4 remote controls for arms and legs!

7.

Choose which images will overlap and which will go 'behind' by using the FRONT and BACK button.

8.

To add a background at the bottom there is a tool bar, select 'background' and then choose one you like.

9.

Finally add some stickers and animations to finish it off!
