

Words of Wisdom

My name

I would love to find out the lessons you have learned in your life and how they could help me in mine.

I have four questions to ask you.

1. What words of wisdom did someone give to you when you were younger?
2. If there was one thing you have learned from your life that may help me with mine.... what would it be?
3. What do you wish you made more time in your life for?
4. If you had your life to live again, what would you do differently?
Could you please tell me your full name and how old you are?

Thank you so much for giving up your time.
