

Around the year 900, the great Mayan cities fell into decline and were abandoned. No one knows why. Order the Cause Cards from most likely to least likely to show what you think the most likely causes for the Mayan decline were.

most likely

least likely

I think this cause is most likely because...

I think this cause is least likely because...

Some Maya continued living on small farming settlements when the great cities declined. Prepare an interview with a Mayan farmer, asking what happened to the cities and why, and how other Mayans feel about what happened.
