

KNOWSLEY CITY LEARNING CENTRES

15 MINUTE TECHNOLOGY ACTIVITIES - JUST FOR FUN!

'Joiners' Photography Part 2- Pic Collage

In this activity your child will take photographs of people or household objects and edit them to make collage, a la David Hockney!

What you will need - a tablet or smart phone & the app Pic Collage (free).

This activity is suitable for all children.

What you need to do:

Download the Pic Collage app. Help your child to take multiple photos of a scene or an object from slightly different angles which will form the 'layers' of your collage. Use the editing tools to cutout, resize and overlap images. Add stickers, borders and background to enhance the picture.

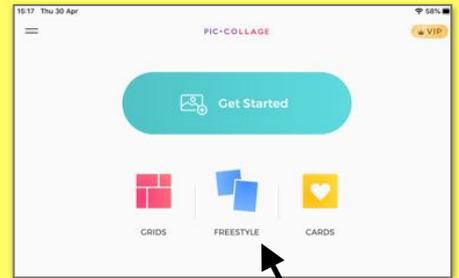

'Joiners' Photography Part 2- Pic Collage

1.

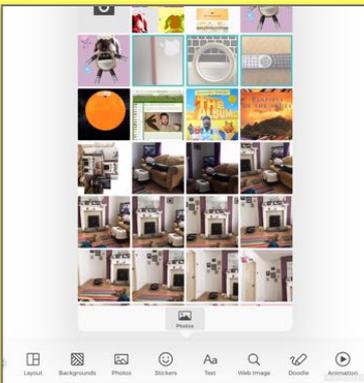

Using the camera app on your phone/ tablet to take photos of your chosen object or scene. Change the angle of each photo. Take around 12 photos.

2.

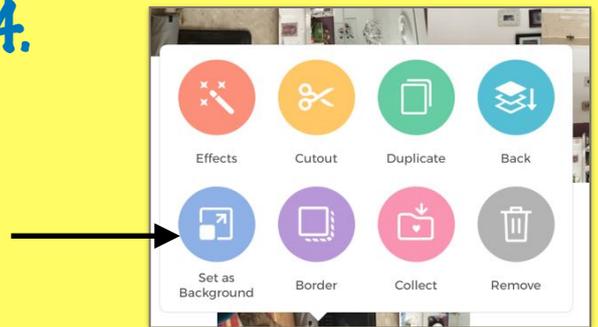

Open Pic Collage and select "FREESTYLE".

3.

Tap anywhere on the screen and select 'photos' from the menu. Then select all of your photos and press the tick to add them to your collage.

4.

Double tap on one image and choose SET AS BACKGROUND.

5.

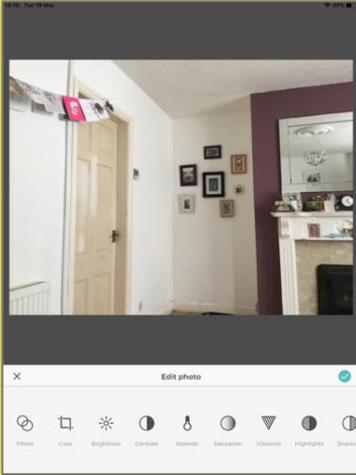

Now position the other photos so images overlap. Use the BACK button to put images behind others to 'layer' the images.

6.

DUPLICATE images if you want more of the same image in your collage.

7.

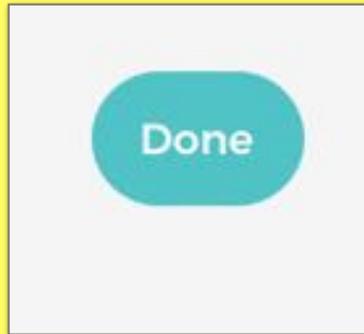

Experiment with EFFECTS button to alter brightness, shadows etc.

8.

Continue to move images until you are happy with your collage.

9.

Finally, click DONE in the top right hand corner when your surreal collage is complete and you want to save it.
