

# At the Farm

**Today we will be...**

Using a map and map symbols to find out way around a farm.

Hello! Do you remember me? My name is Farmer Phil and I run Fairview Farm.

What can you remember about my farm?  
What buildings and features did it have?

Fairview Farm has lots of different buildings and features. **Did you remember these ones?**

farmhouse

cow barn

hen house

pig sty

farm shop

orchard

office

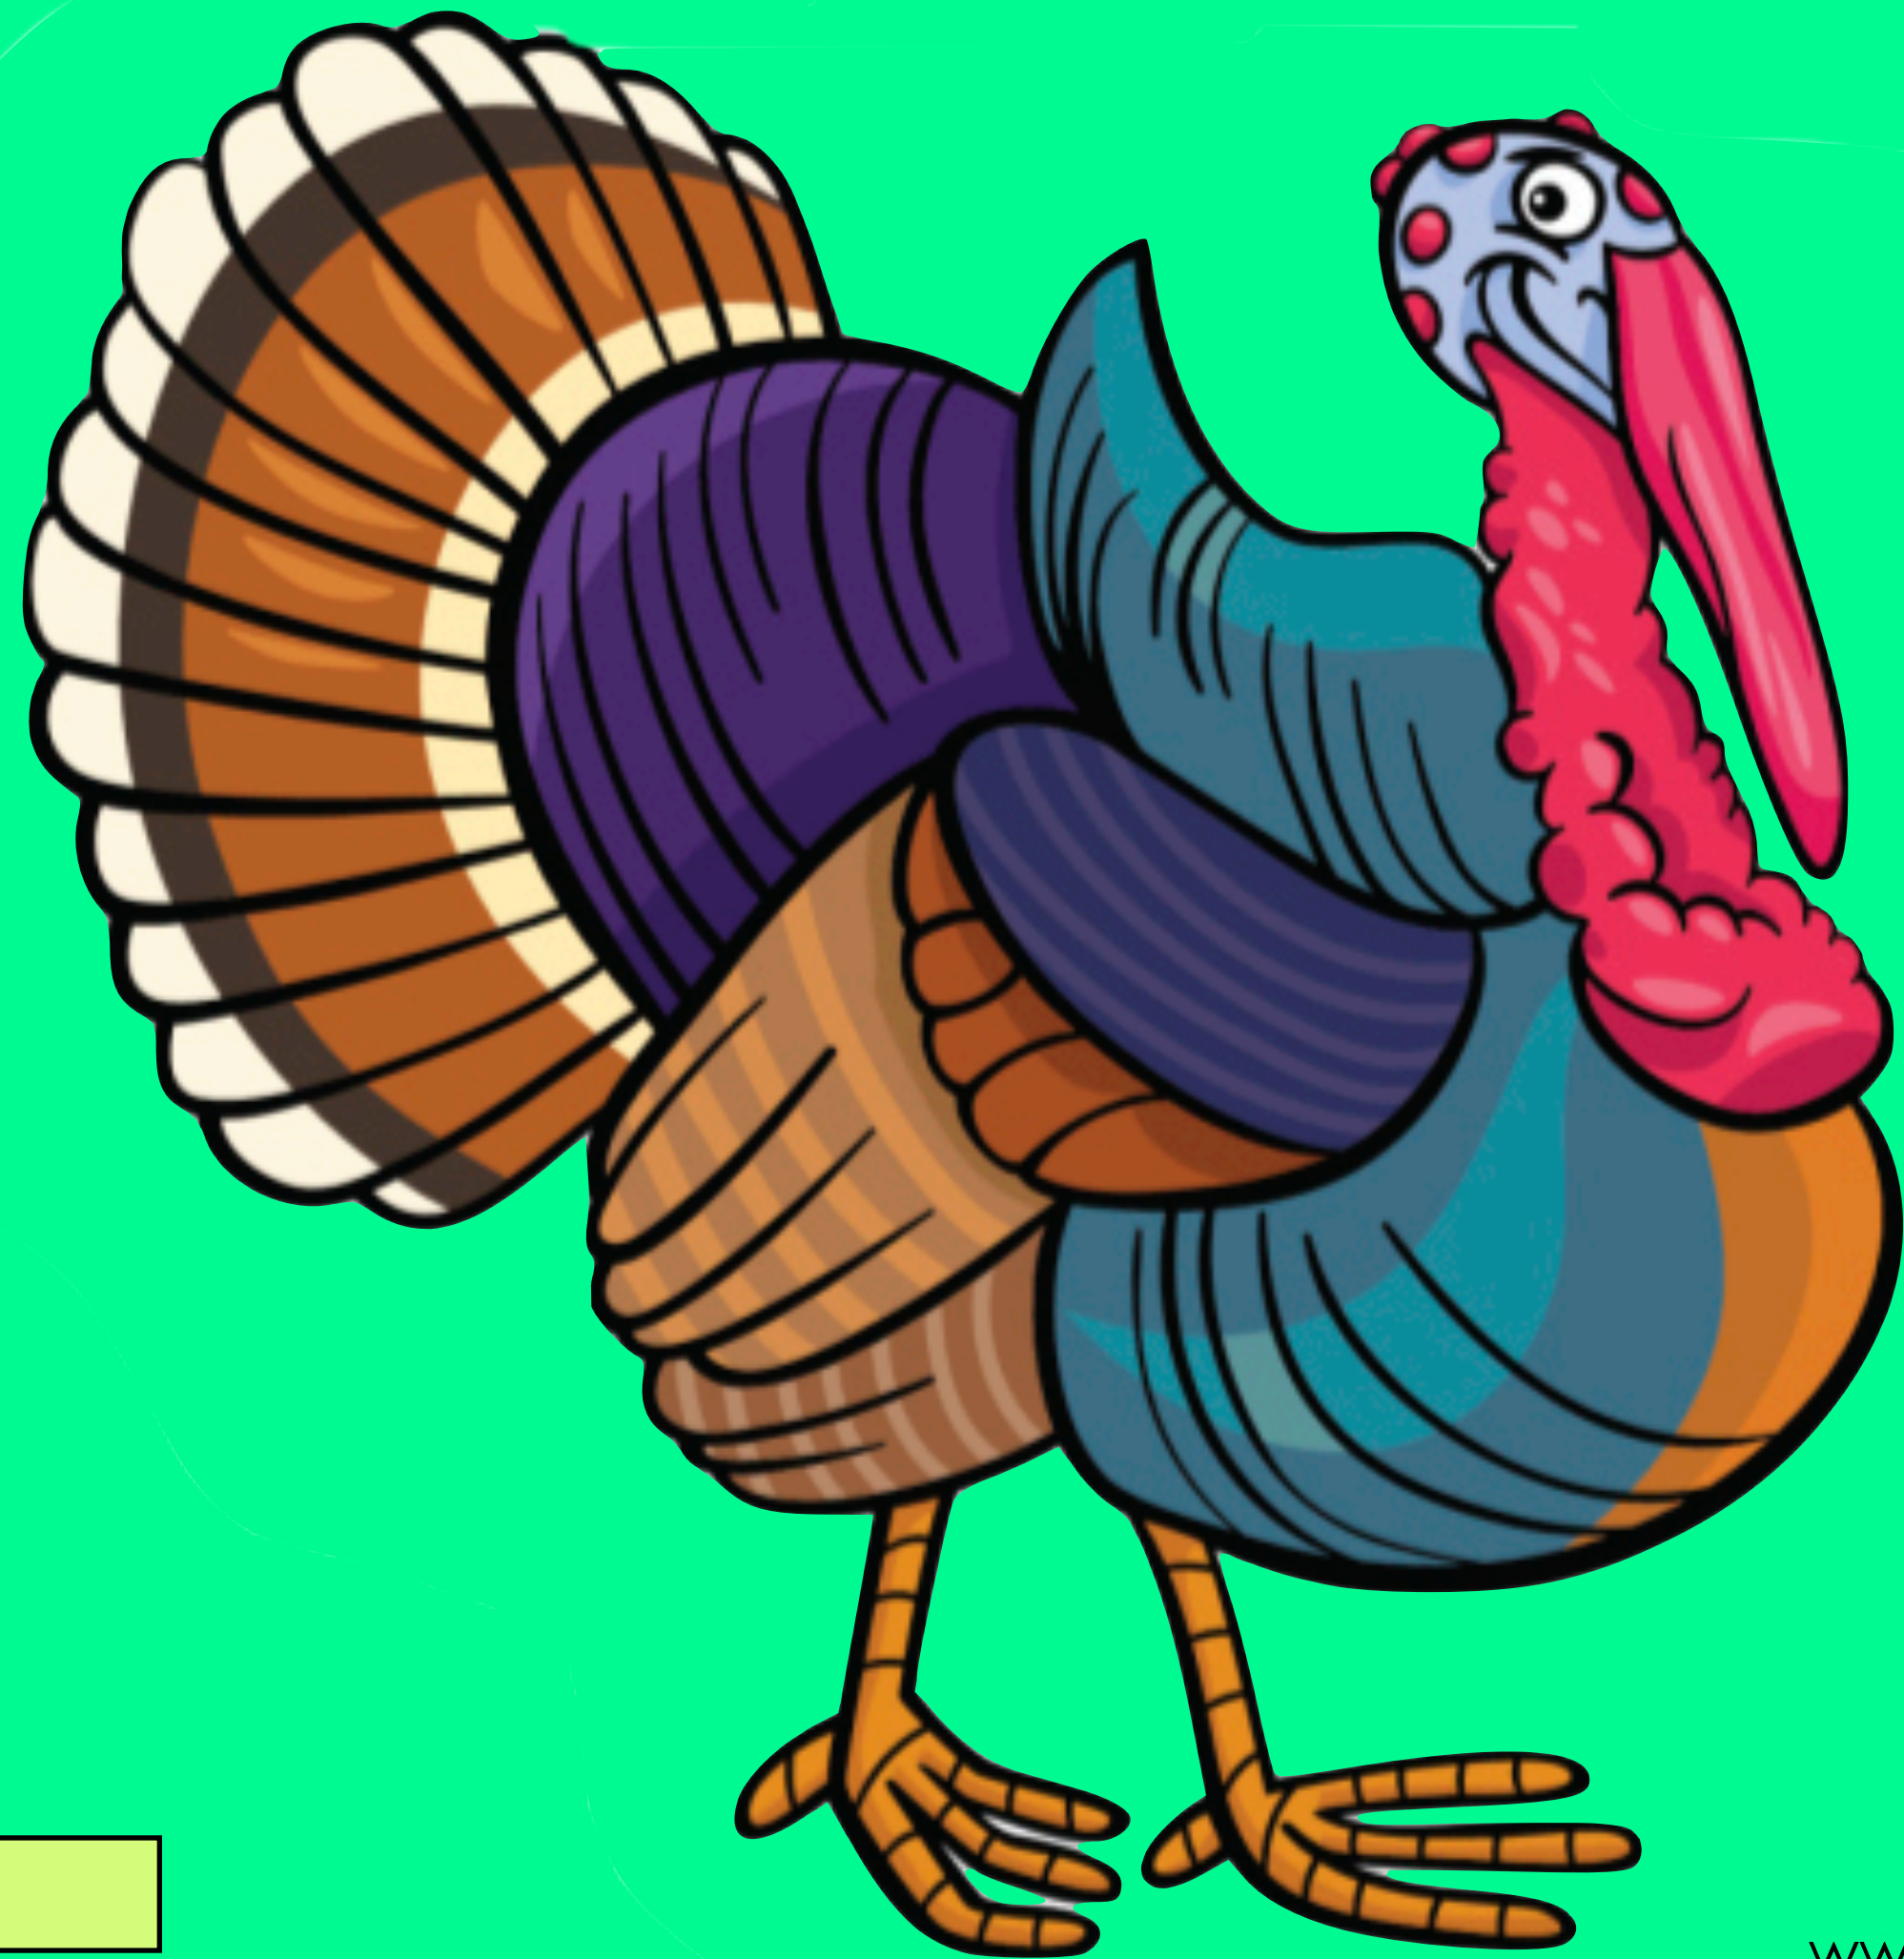

hay barn

fields

Today we are going to be using a map to help us find our way around the farm.

Why are maps important?

What do we use them for?

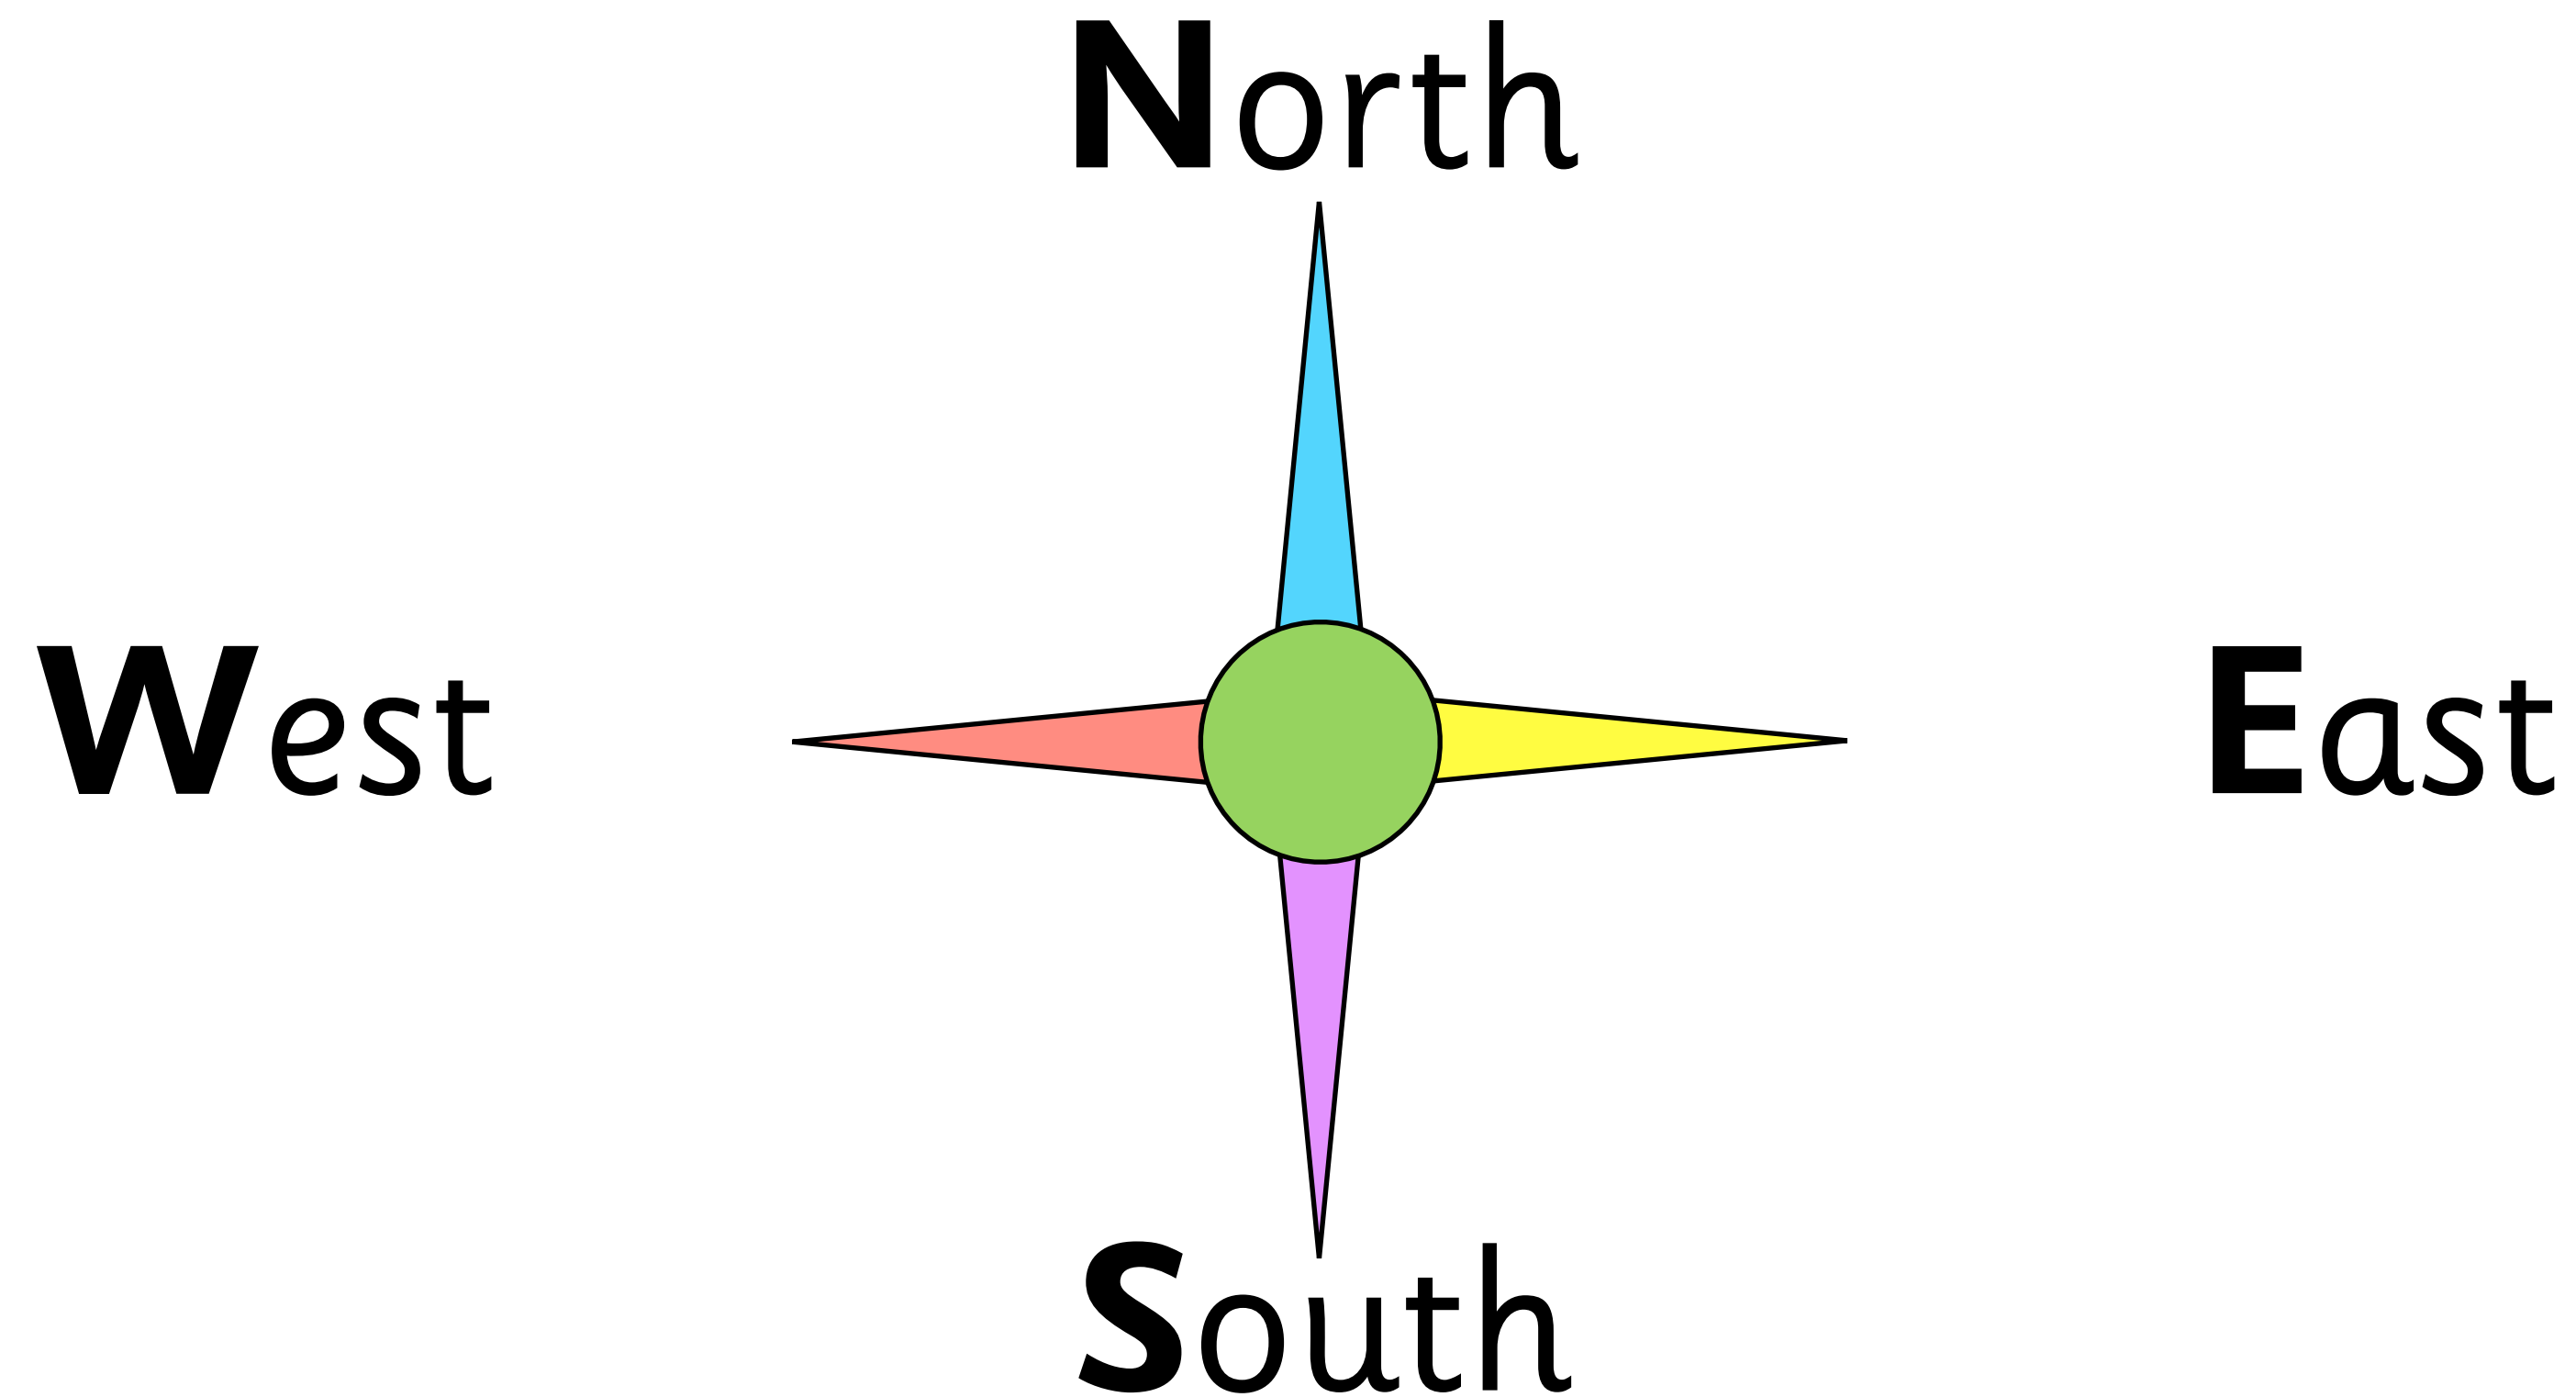

A useful way to navigate around a map is to use a compass. Compasses have four main points: north, south, east and west. The arrow on a compass always points north (towards the north pole) so you always know which direction you are facing.

Let's find where north is in our classroom then see if we can face each of the other directions too!

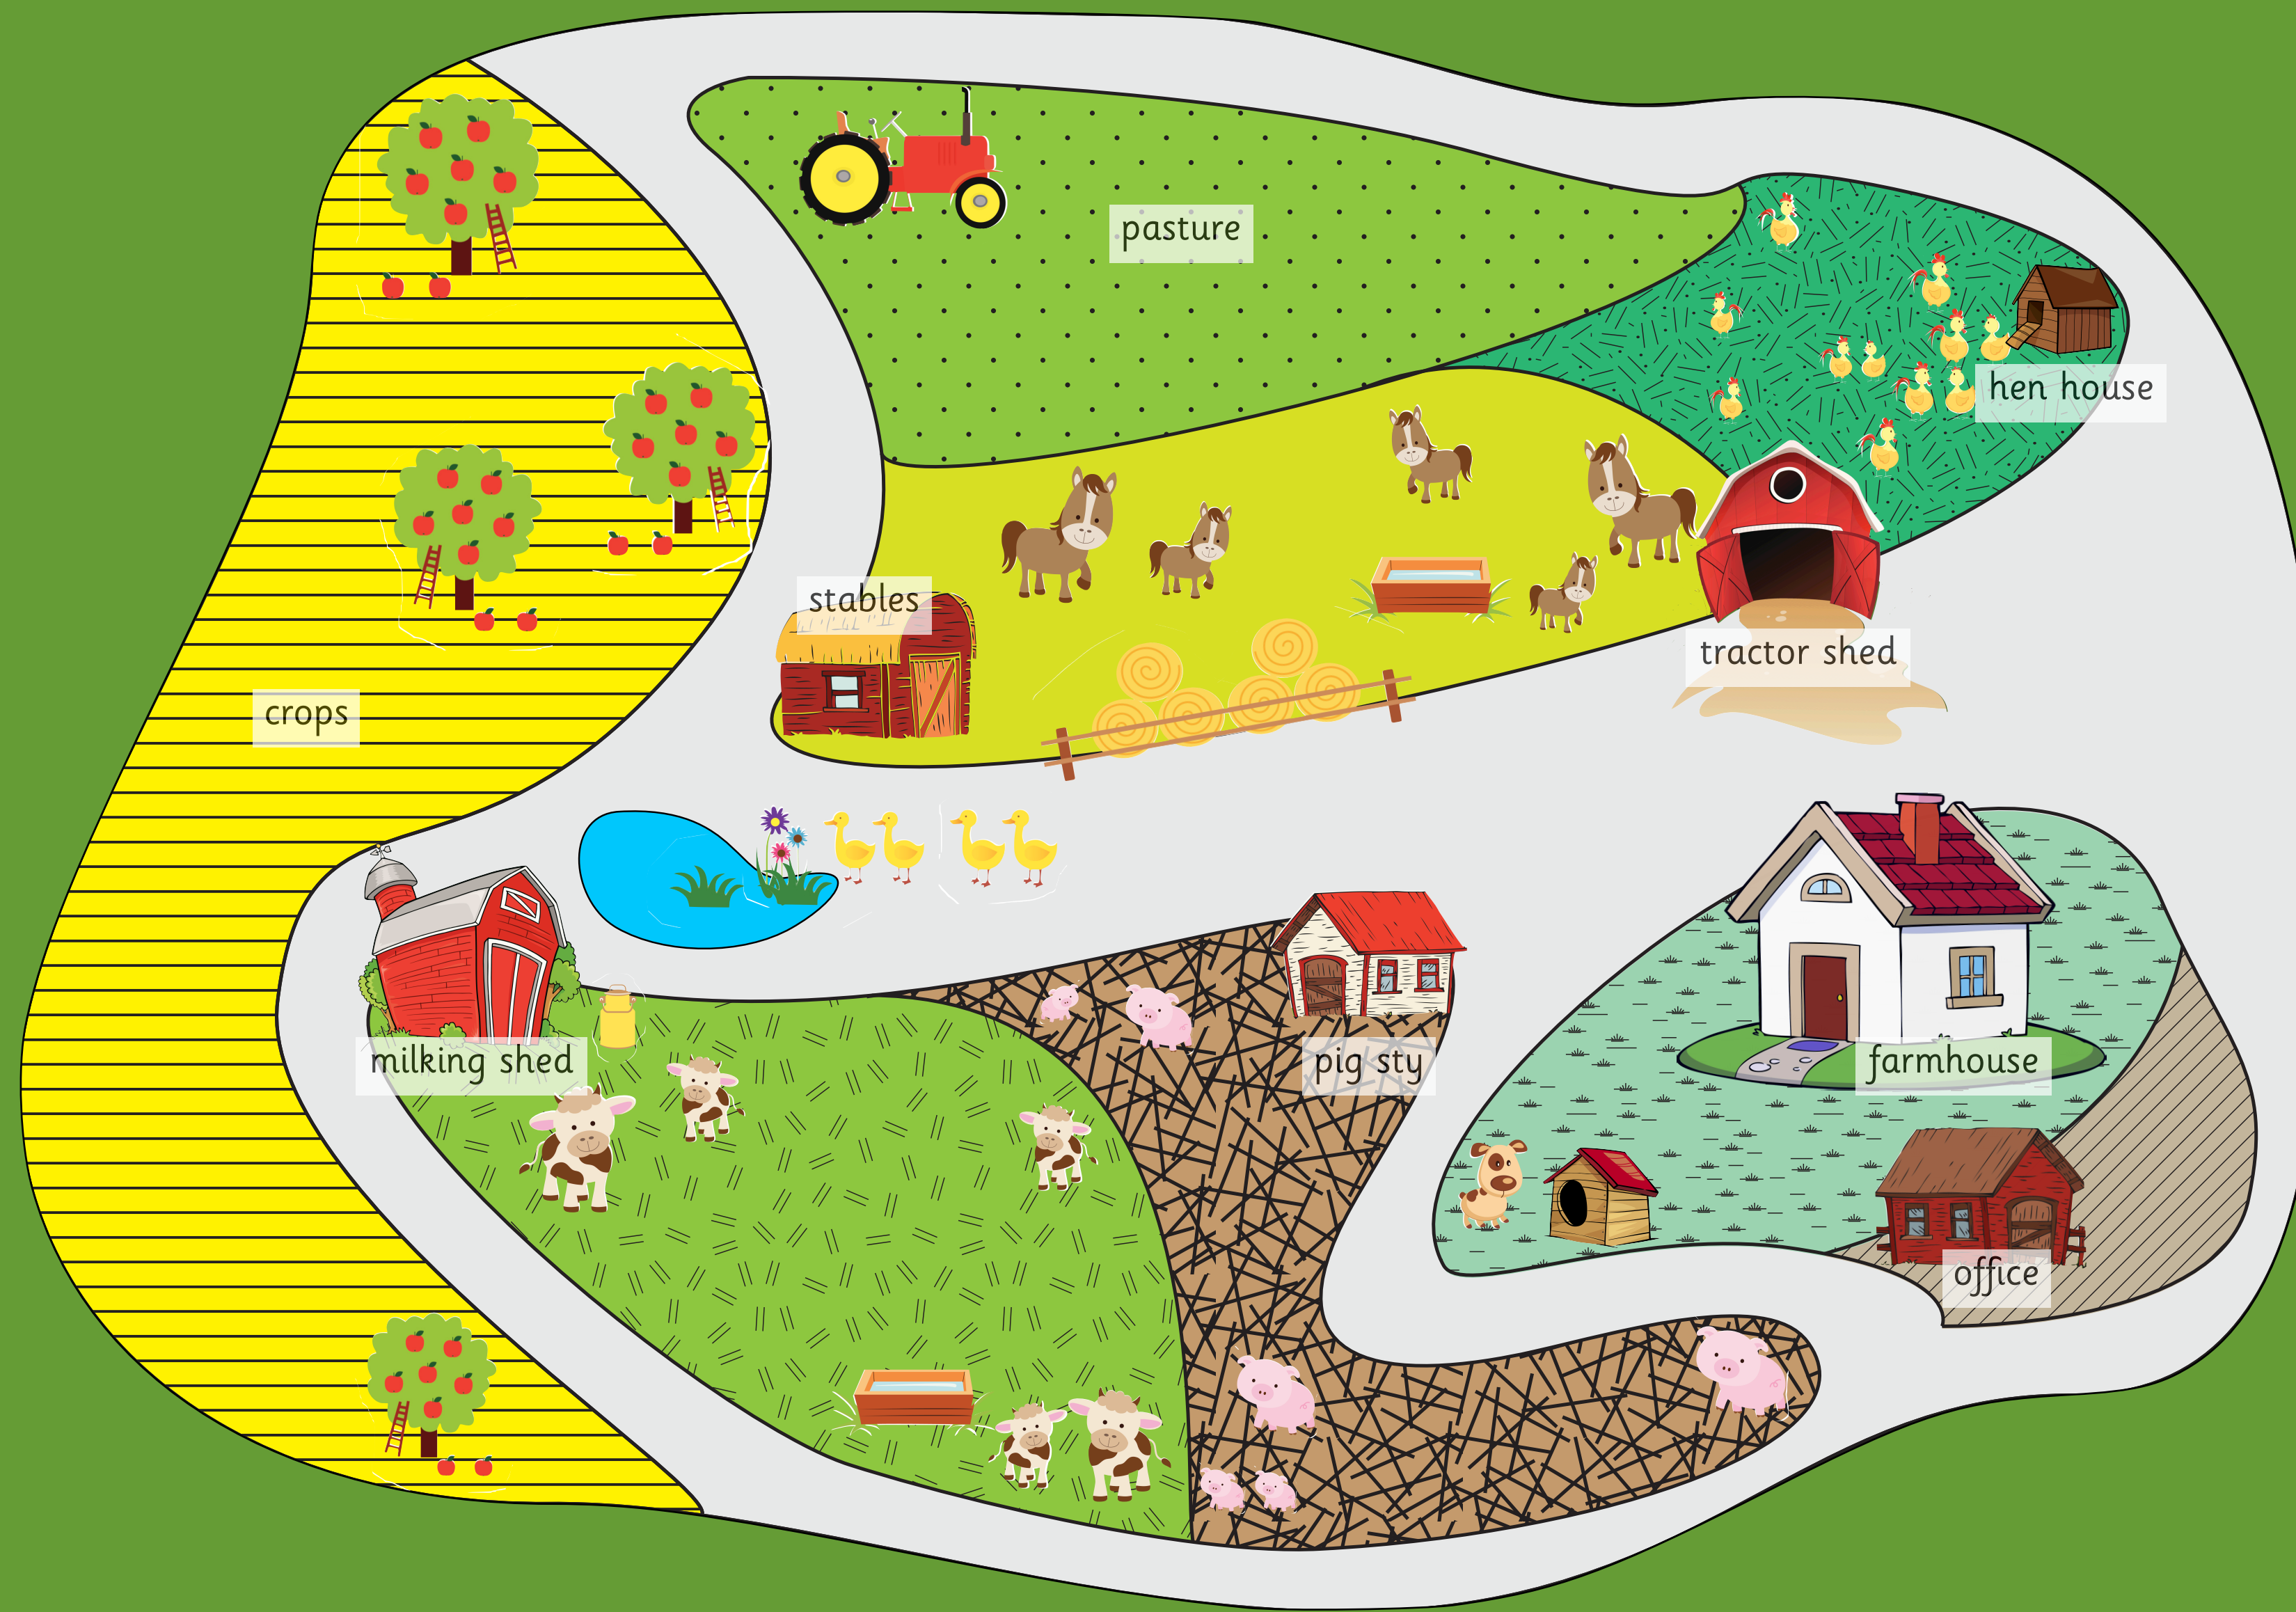

I have created a map of my farm.  
Have a look at it and tell me what  
you can see!

# Fairview Farm

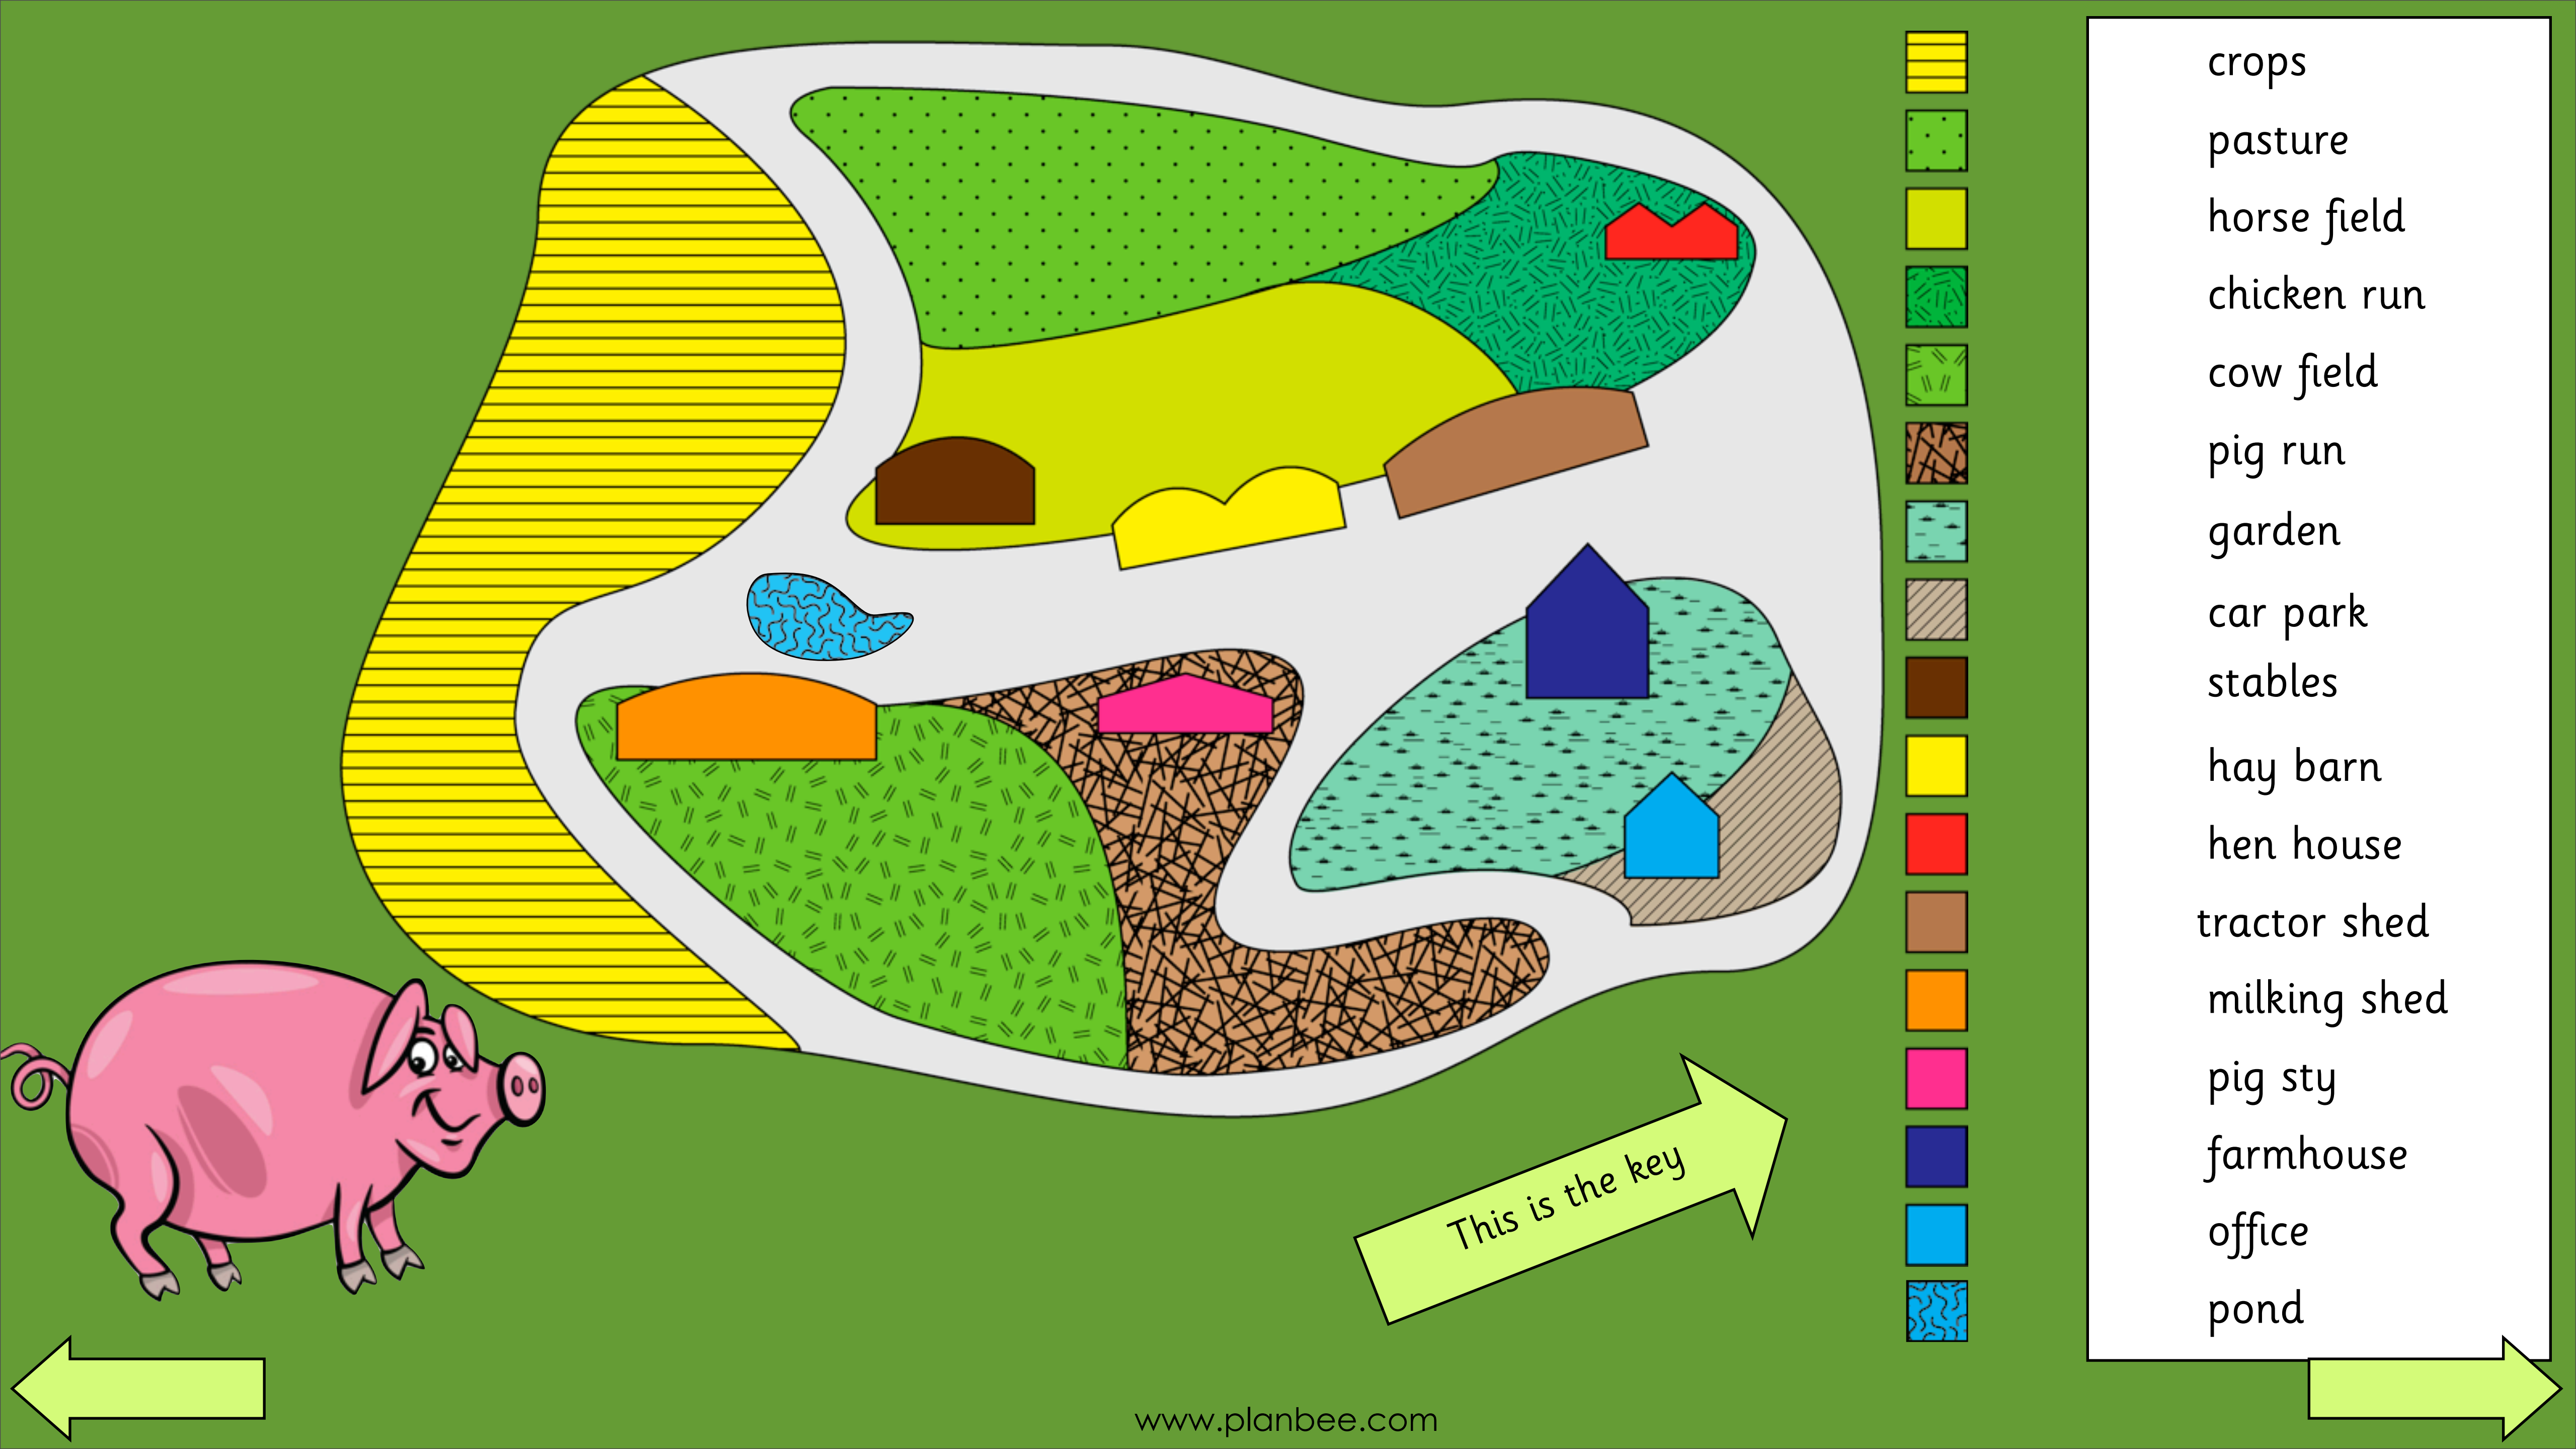

When we use maps, it is sometimes easier and clearer to use a key to show what is what.

I made another map but this time using a key. See if you can find each of the places shown on the key...

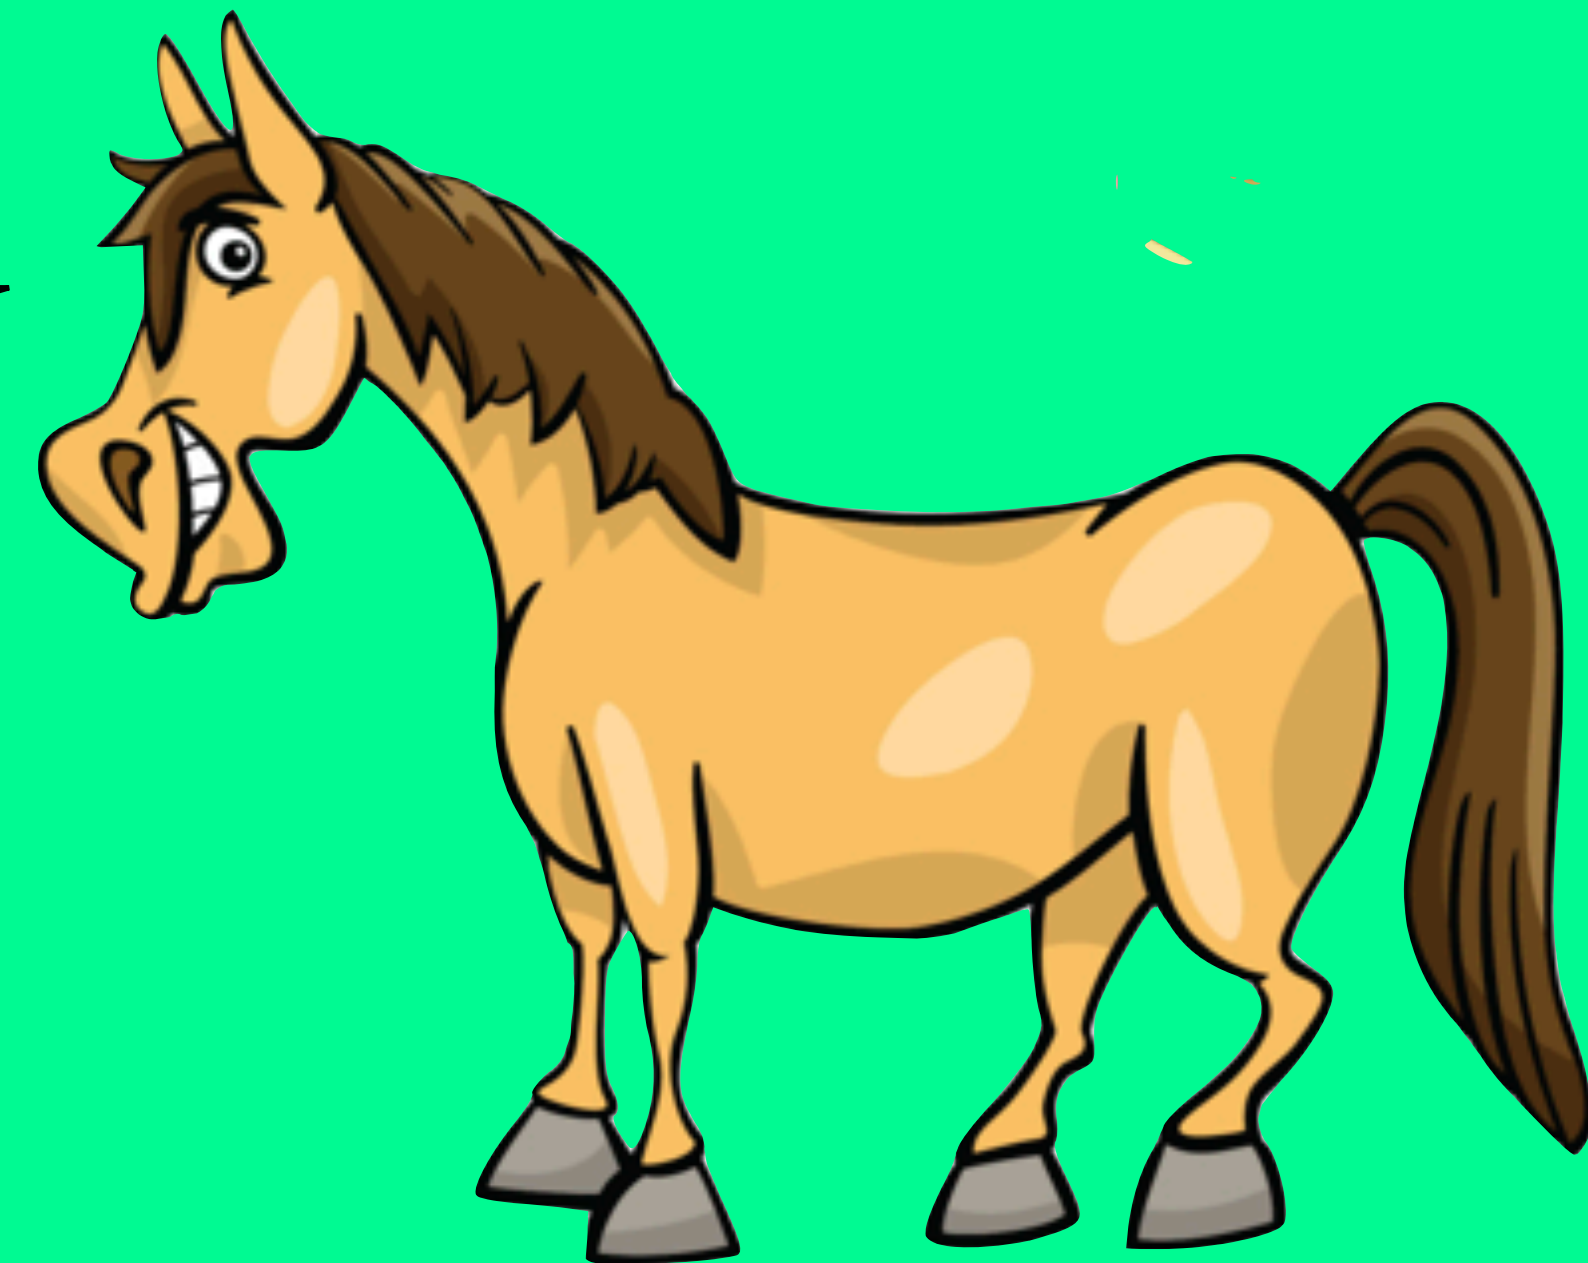

- crops
- pasture
- horse field
- chicken run
- cow field
- pig run
- garden
- car park
- stables
- hay barn
- hen house
- tractor shed
- milking shed
- pig sty
- farmhouse
- office
- pond

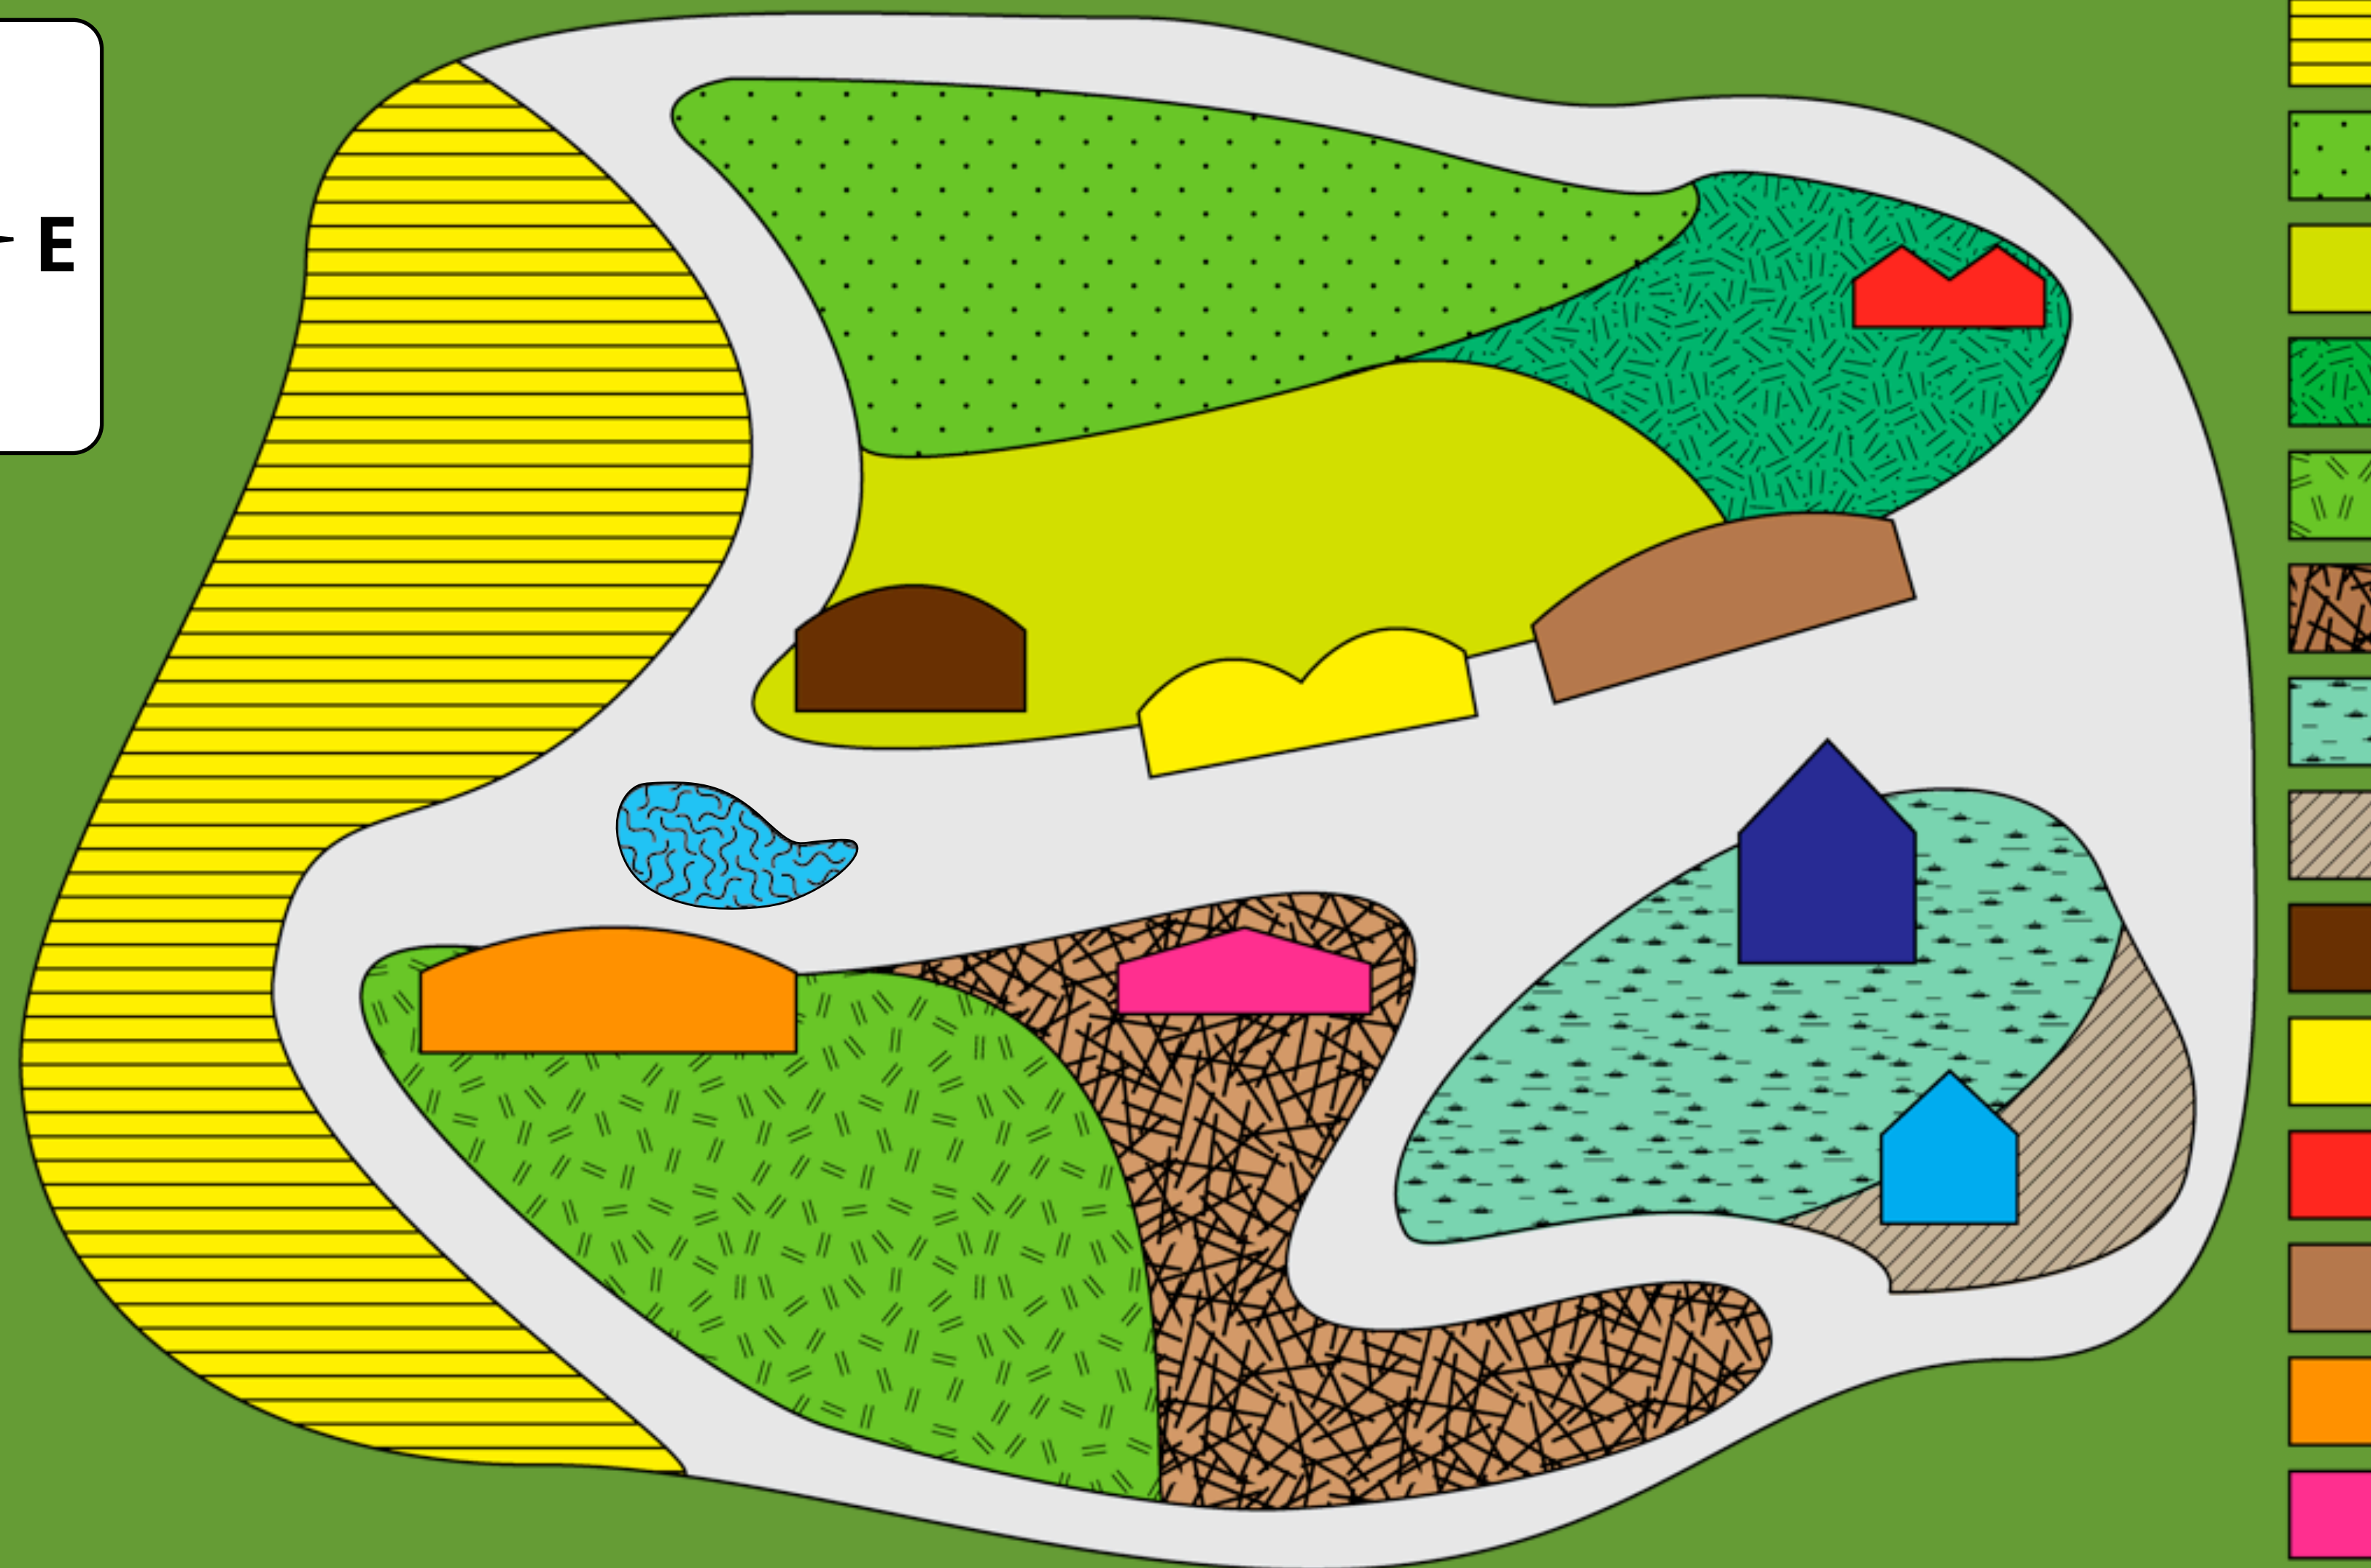

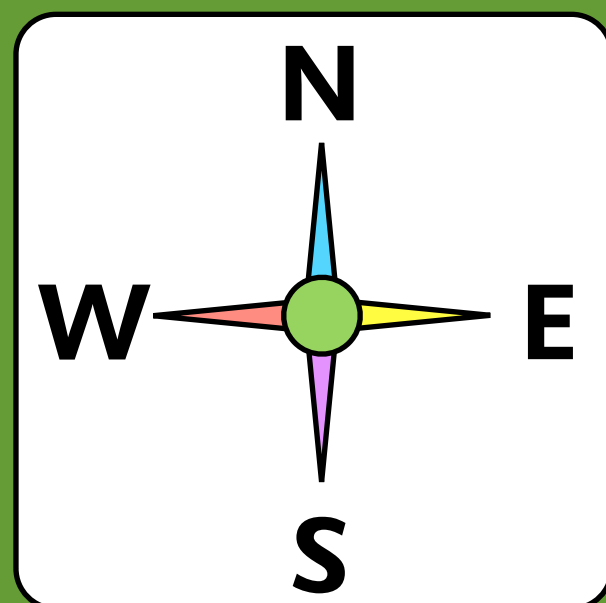

Now let's see if we can describe where places on the map are.

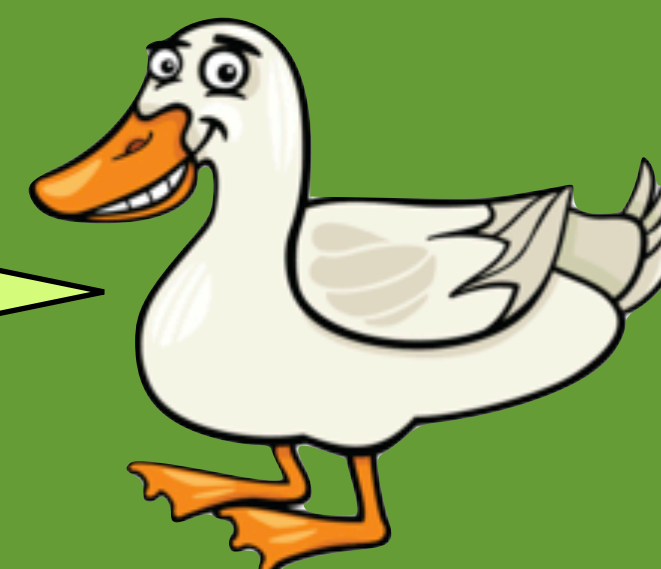

The duck has done an example on the next slide!

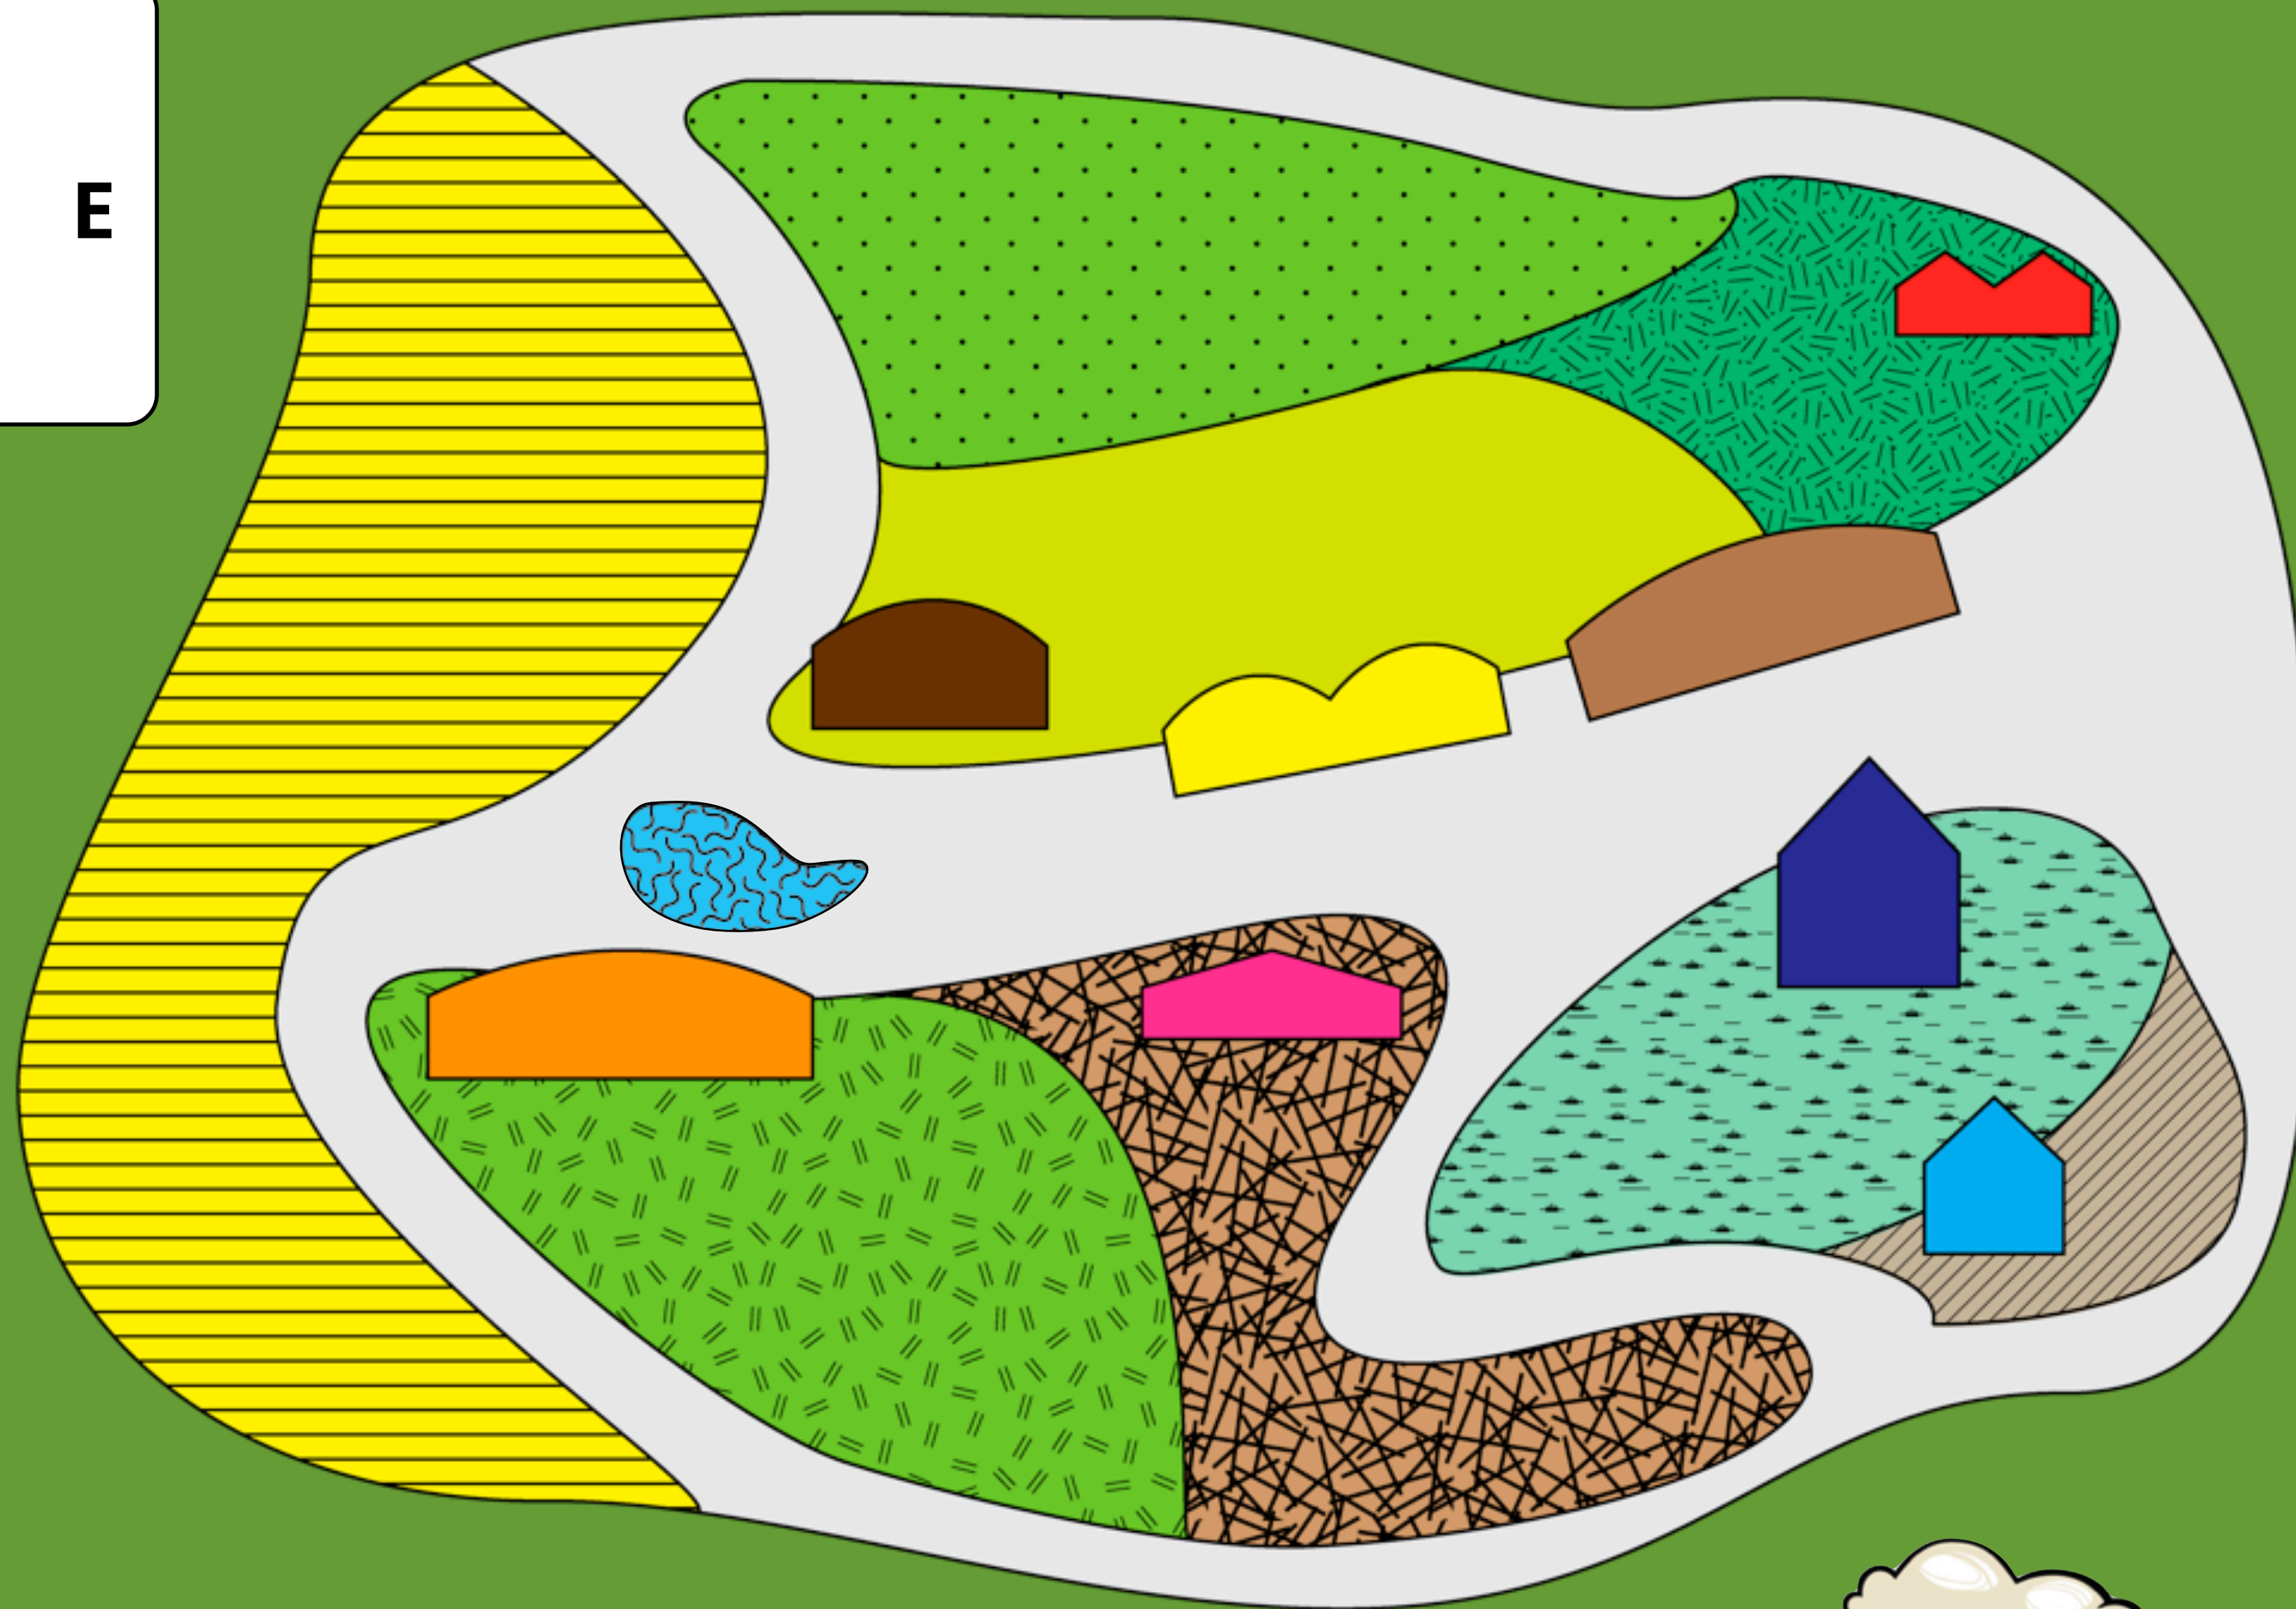

- crops
- pasture
- horse field
- chicken run
- cow field
- pig run
- garden
- car park
- stables
- hay barn
- hen house
- tractor shed
- milking shed
- pig sty
- farmhouse
- office
- pond

The pond is north of the milking shed and near the crops.

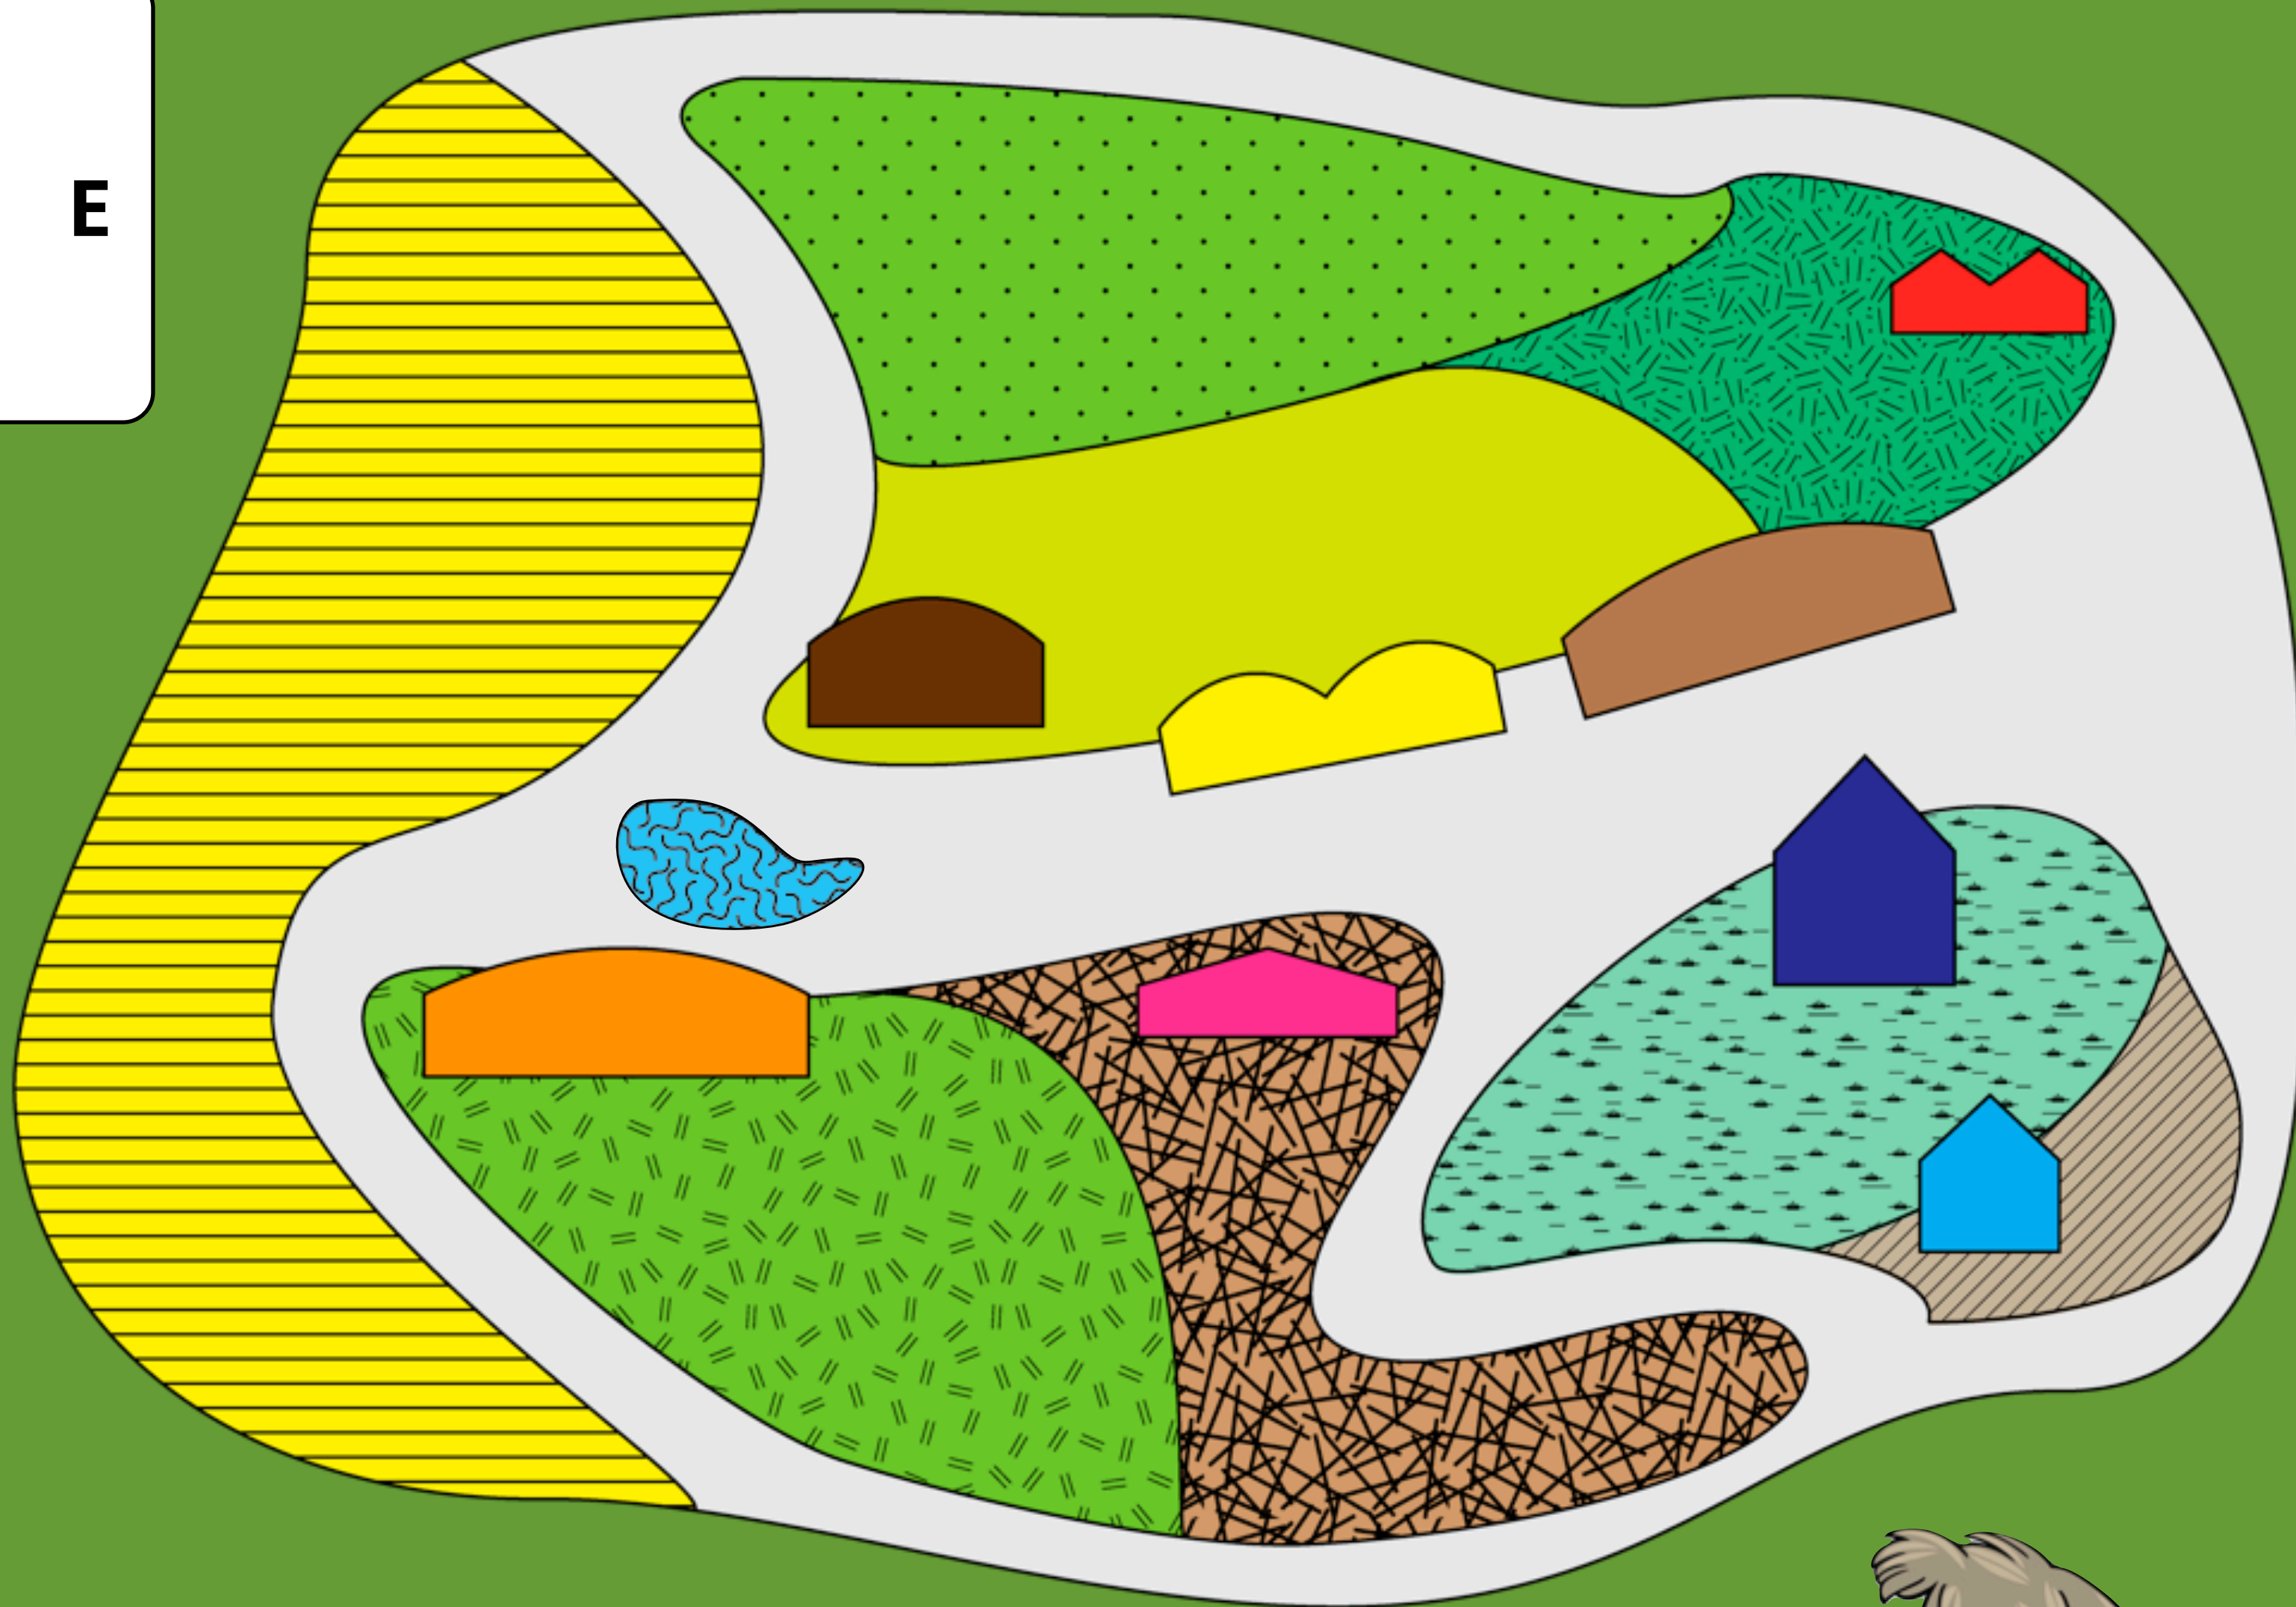

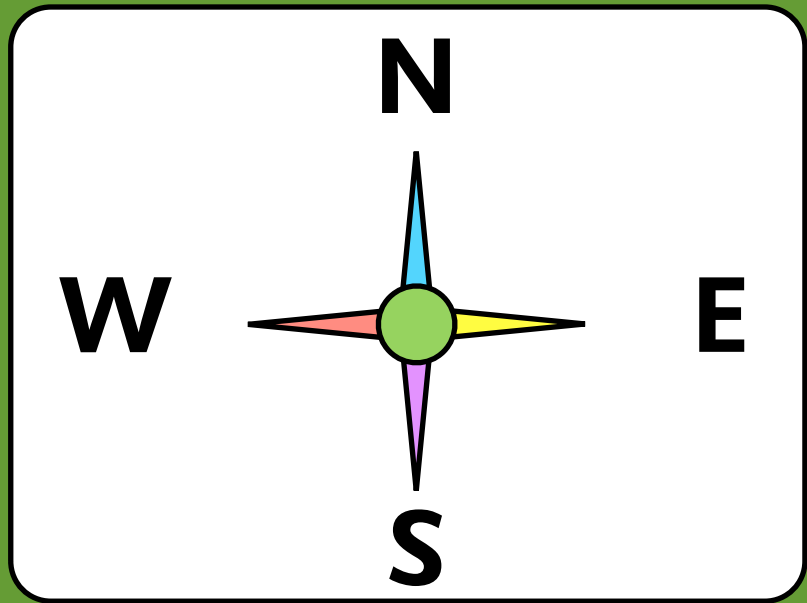

- 
- A cartoon illustration of a sheep with a large, fluffy white woolly body and a small brown face. The sheep is standing on a green field with a green background.

Where is the pasture?

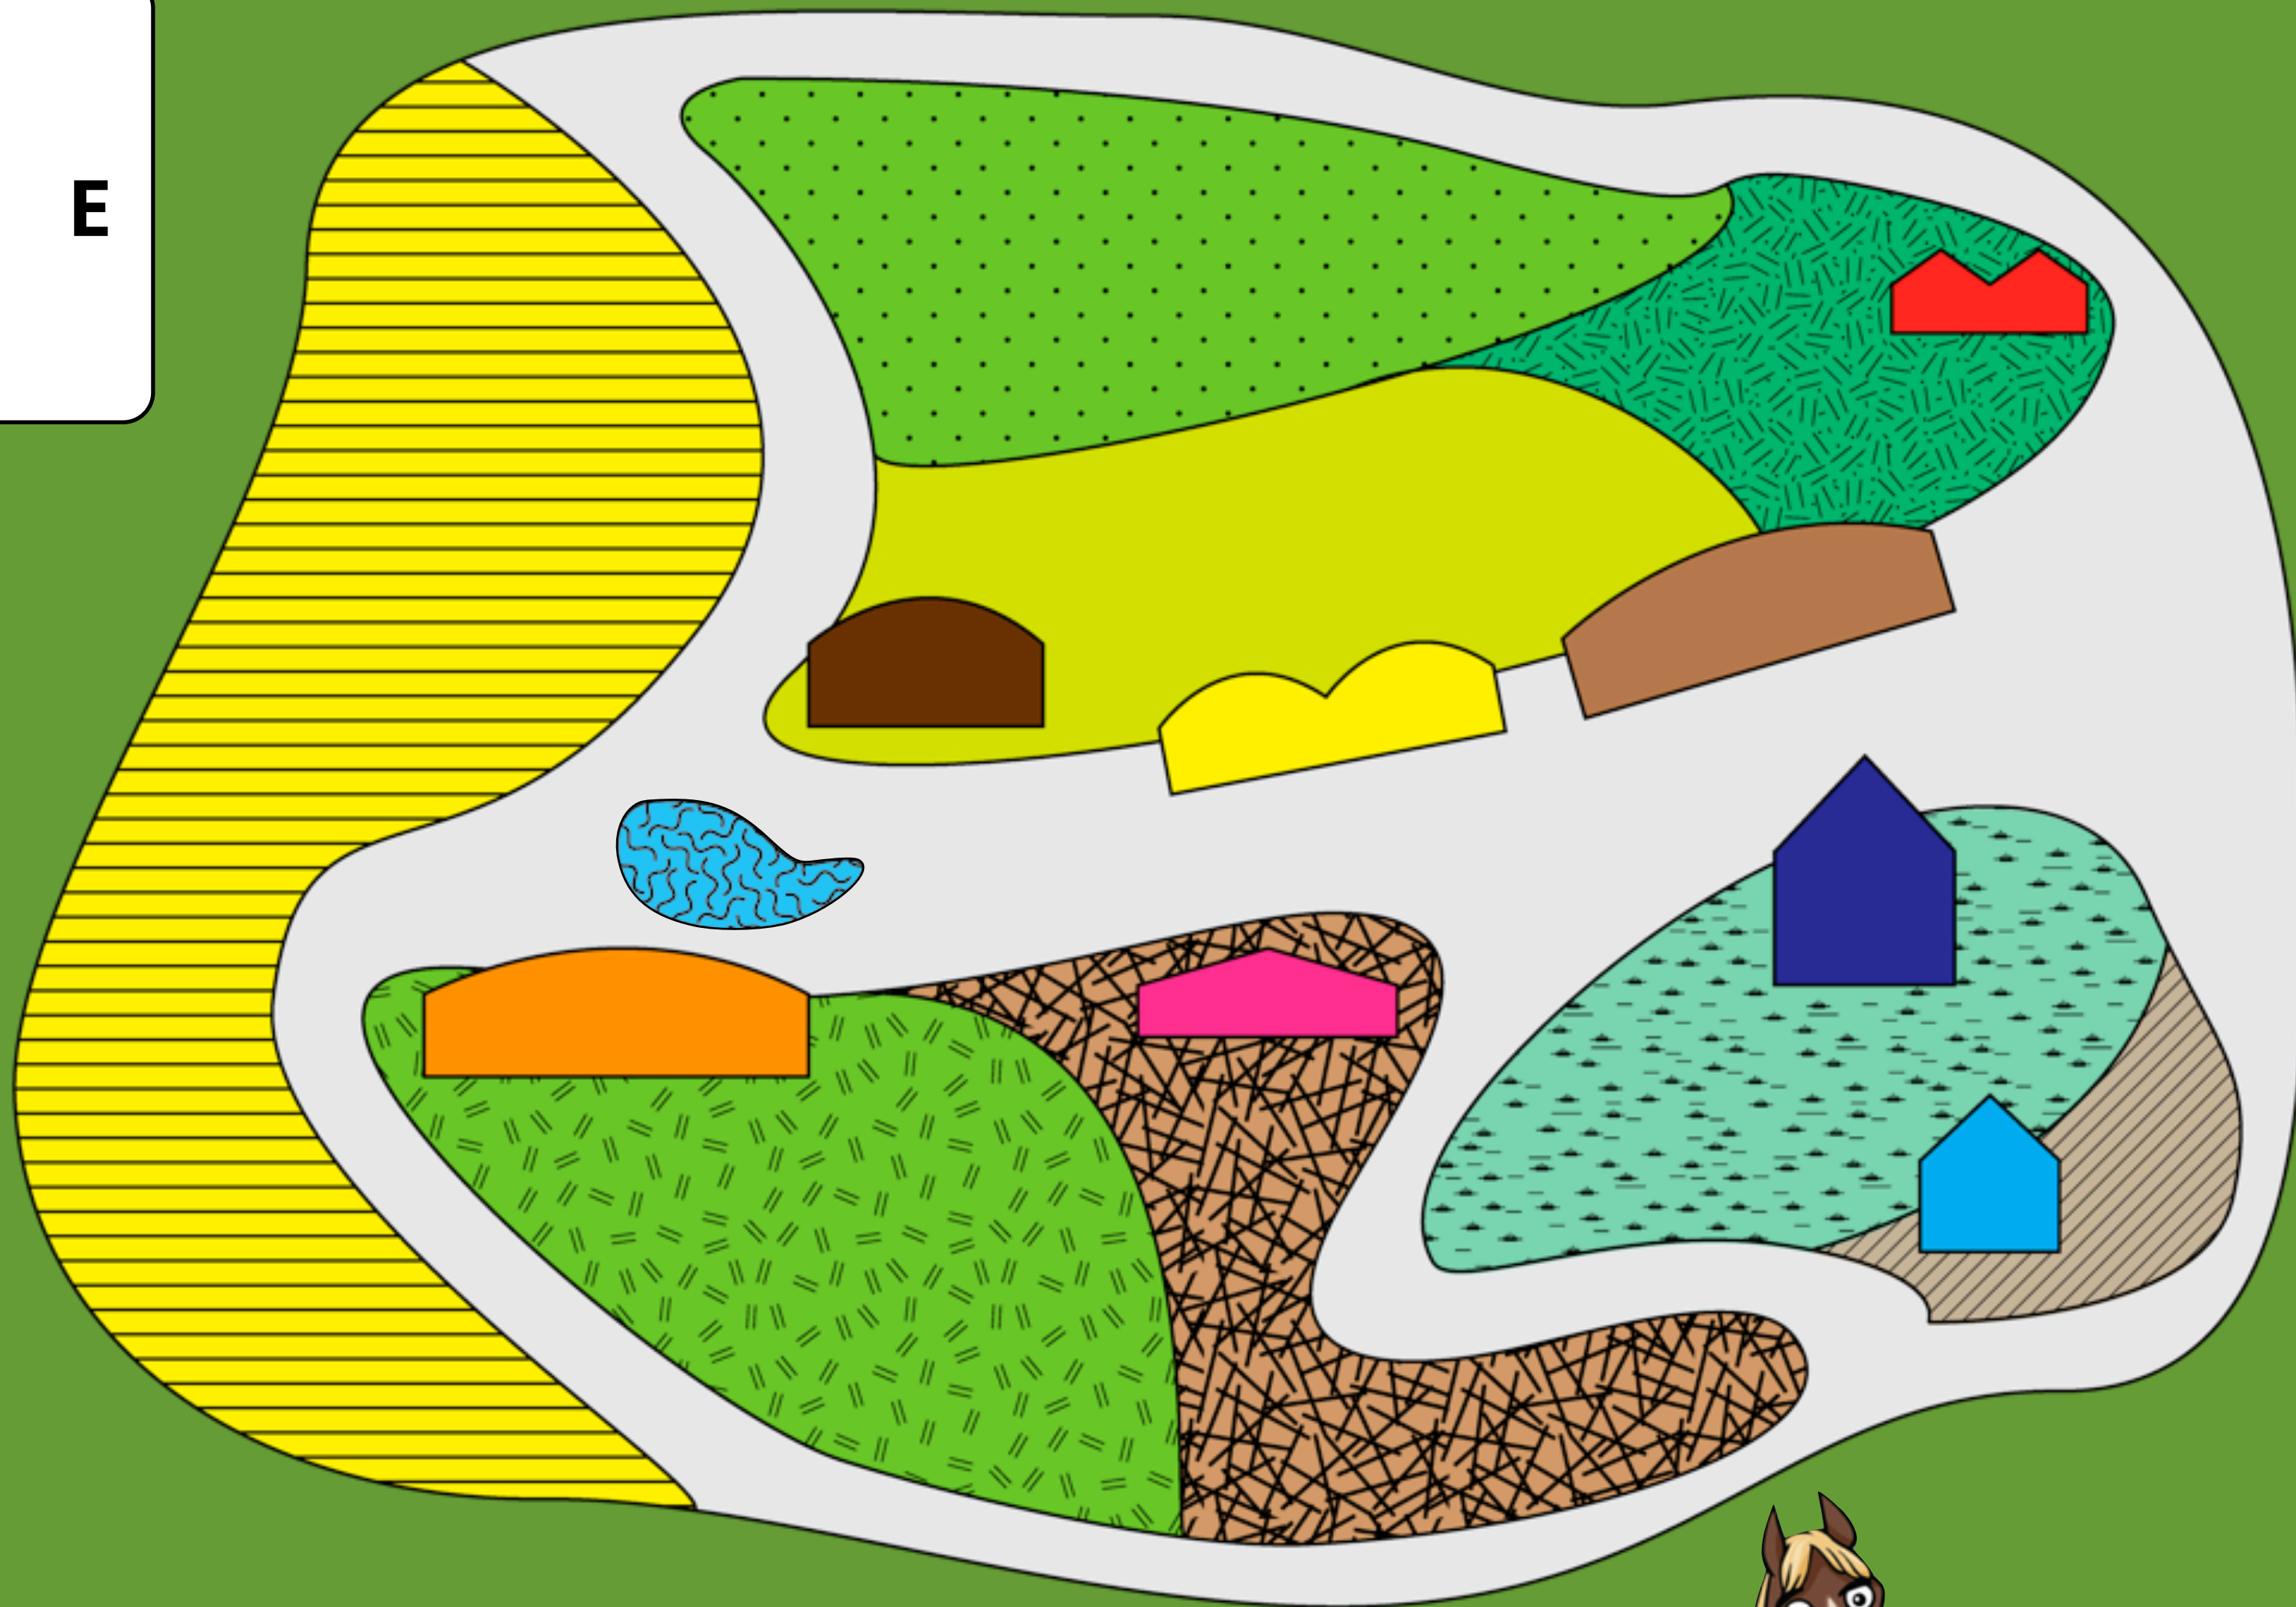

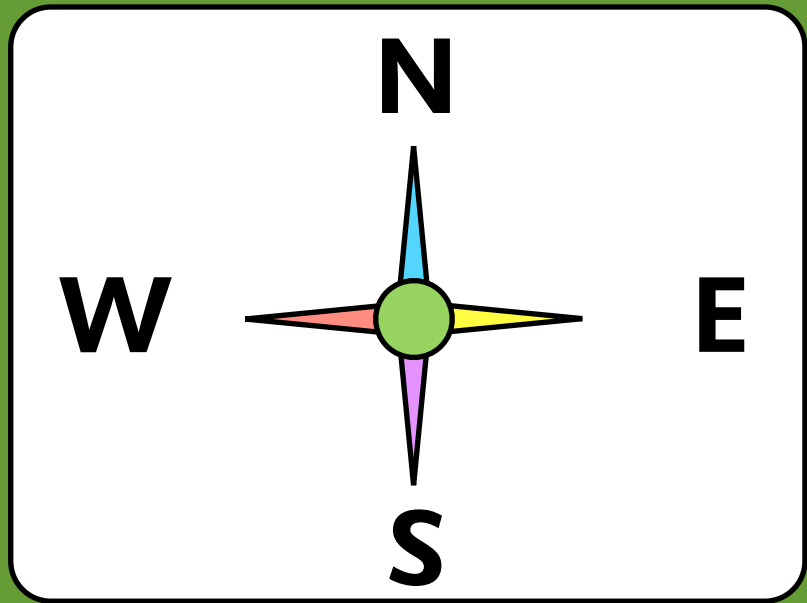

- 
- A cartoon illustration of a turkey. The turkey has a large, pink, wrinkled wattle and a blue face with large, white eyes. Its body is primarily blue and orange, with a large, multi-colored tail fan featuring shades of brown, orange, and white. The turkey is standing on two orange legs with three-toed feet. The background is a solid green color.
